# Swachh Volunteering:

*A ready-reckoner for organizations and individuals to contribute to the cause of Swachh Bharat Mission*

सत्यमेव जयते

Ministry of Urban Development  
Government of India

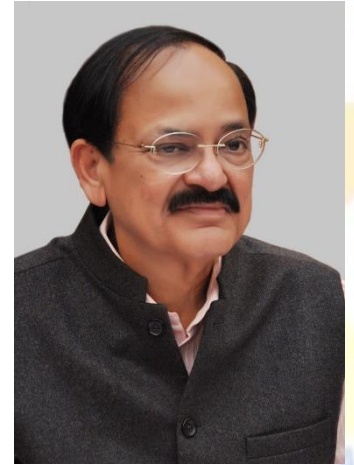

**USAID**  
FROM THE AMERICAN PEOPLE

## M. Venkaiah Naidu

Minister of Urban Development, Housing & Urban Poverty Alleviation and Parliamentary Affairs

When the Swachh Bharat Mission was launched on 2nd October, 2014, it was with the understanding that this Mission would be successful only when it becomes a people's movement – a '**Jan Andolan**', with participation from each and every stakeholder.

We have taken up a multi-pronged strategy for making this mission successful, and turning it into a people's movement. In its second year since launch, it is heartening to note that the Swachh Bharat Mission has caught the imagination of citizens.

The increased participation from citizens, be it as part of our thematic drives, or voluntary 'swachhata' activities from inspired individuals and organizations, is slowly but surely pushing the Mission towards becoming a 'Jan Andolan'.

One of our most crucial stakeholders with the potential to create a significant impact for the Swachh Bharat Mission is the corporate sector. In fact, a key objective of the Swachh Bharat Mission is **to create an enabling environment for private sector participation in Capex (capital expenditure) and Opex (operation and maintenance).**

The focus of the thematic drive for 16<sup>th</sup> – 30<sup>th</sup> June 2016 is on *corporate volunteering* towards the cause of Swachh Bharat Mission. I am happy to see this ready reckoner being brought out in the backdrop of this theme, by the Ministry of Urban Development. This document not only lists out the names of those organizations and individuals that have donated and contributed generously to the cause of Swachh Bharat, it also provides a suggestive list of ways in which corporates who want to donate and contribute to the cause of SBM can do so, along with a handy contact list of 500 cities and all state mission directorates.

I am hopeful that organizations and individuals will come forward en masse to contribute their time, money and efforts generously, so that we can collectively win the final race towards a "Swachh Bharat" by 2<sup>nd</sup> October 2019.

A decorative border of colorful hands in various colors (orange, blue, yellow, green, purple, cyan) is positioned around the edges of the page. The hands are stylized and appear to be reaching out or holding each other.

Contact details of States and Cities	11

## Background and Objectives

### **Background**

The Hon'ble Prime Minister launched the Swachh Bharat Mission on 2nd October, 2014 with a target to make the country clean and sanitized by 2nd October, 2019.

A key objective of the Swachh Bharat Mission is to create an enabling environment so that the private sector can also become participants in India' collective journey towards "swachhata".

The total budget outlay for Swachh Bharat Mission is Rs 62009 crores. Of this amount, RS 14623 crores is contributed by the Government of India, while the share of states / Urban Local Bodies together comes to Rs 4874. This leaves an amount of Rs 42512 crores that needs to be generated from other sources: CSR contributions, Individual Contributions, Swachh Bharat Kosh, etc.

### **Objectives**

The objective of this ready-reckoner is to support the "Jan Andolan" that Swachh Bharat Mission has become. Through this document, we believe, corporations, organizations and individuals will be encouraged and facilitated to contribute to the cause of "Swachh Bharat" significantly and generously.

In this document, we spell out some ways in which Organizations and Individuals can contribute to "Swachh Bharat Mission", we laud and thank those who have done so, and also have given out the contact details of key people in states and cities (those with population above 1 lakh) so as to help organizations and individuals reach out to their local officials for the purpose of Swachh Bharat Mission.

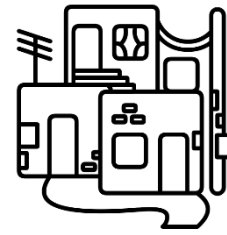

## Avenues for Contributing to Swachh Bharat Mission

Donate to  
**Swachh Bharat Kosh**  
(sbkosh.gov.in)

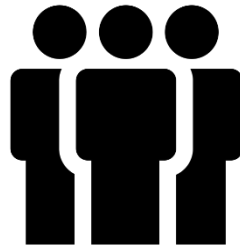

Fund your city's  
**Swachh Bharat Mission**  
Project

Adopt a nearby slum and  
create awareness about  
safe sanitation

Contribute towards  
**Community Toilets** in your  
area

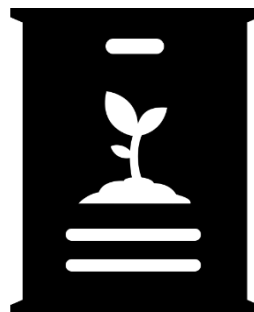

Community organization  
for behavior change

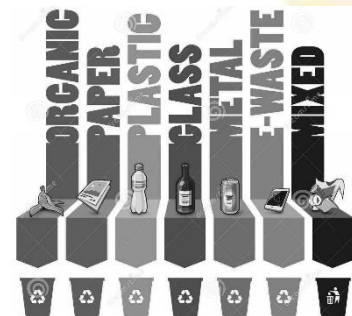

Stand-alone urinals in  
public areas close to your  
premises

Public Urinals and Toilets  
in Commercial Areas

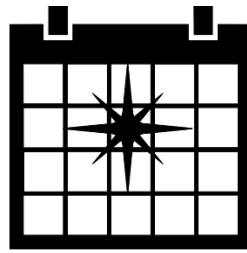

On-premise composting of  
biodegradable waste

Mandatory segregation of  
on premise waste

100 hours of "Shramdaan" by employees towards cleanliness

"Swachhata Day" in office every week

Make office/ factories "No Plastic" zone

Adopt a nearby park for maintenance

Sponsor Behaviour change initiatives in your community

Fund procurement of municipal equipment by your local Urban Body

Reduce  
Reuse  
Recycle

*The above list is only indicative; organizations and individuals are encouraged to explore localized solutions to promote "Swachhata" and take up many such activities. They are also encouraged to upload details of such activities on [swachhbharat.mygov.in](http://swachhbharat.mygov.in).*

## Organizations that have contributed generously to Swachh Bharat Mission

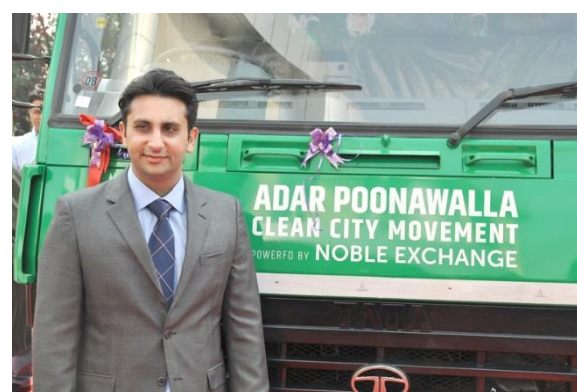

The Ministry of Urban Development, on behalf of all Indians, acknowledges and sincerely appreciates the generous contributions of various private sector organizations to the cause of Swachh Bharat Mission. A representative summary of a few significant initiatives from private organizations are provided below, which provide insights on various ways that private organizations and the corporate sector has been contributing to the Swachh Bharat Mission. A subsequent section provides an indicative list of major contributors to Swachh Bharat Mission from private organizations.

### Cyrus Poonawalla Group

Adar C Poonawalla, CEO, Serum Institute of India has contributed Rs 100 crores towards making sanitation and hygiene facilities available to Pune. **The Adar Poonawalla Clean City campaign** aims to support the Pune Municipal Corporation with infrastructure and management of solid waste, specially focusing on organic waste management. This would include:

- Providing litter bins to be installed at strategic / high traffic locations across the city
- Support of vehicles and manpower for clearance of garbage from litter bins
- Mobile food waste processing vans to enable processing of organic food waste at ward level
- Information and outreach programs to educate citizens regarding importance of segregation of waste and disposal using waste / litter bins
- Activation programs in association with PMC at school, mohalla committee, residential societies, market places, amongst others

### Infosys Foundation

Infosys Foundation has constructed 161 toilets in 46 schools of Odisha as part of its endeavor to support the Prime Minister's 'Swachh Bharat Swachh Vidyalaya Abhiyan'. Under the first phase of the sanitation initiative, the Foundation has built toilets in 46 government schools in the district of Khurda. The Foundation has signed a MOU with the state government undertaking OPEPA (Odisha Primary Education Programme Authority) for construction of toilets in 109 schools in the state.

Infosys Foundation

### Tata Consultancy Services

TCS has pledged INR 100 crore to the 'Swachh Bharat, Swachh Vidyalaya Abhiyan' to build dedicated sanitation facilities for girl students in adopted government schools. The programme is being rolled-out in a phase-wise manner, with 860 schools targeted in Phase-1.

### ITC Group

ITC's Health & Sanitation Programme focuses on ensuring construction and usage of low-cost family-owned toilets in the catchments of its manufacturing units, the majority of which are located in rural areas. ITC's strategy is centered on galvanizing a people's movement and mobilizing empowered grassroots institutions that take the lead in building family-owned toilets. Intensive awareness generation programmes customized to target men, women and children combined with a mandatory financial contribution from participating families help to ensure high and sustained usage levels of the constructed toilets. Wherever possible, the initiative works in active collaboration with government sanitation schemes. Over 11,000 toilets have been built till date under this scheme.

ITC's Well-being Out of Waste (WOW) programme is another initiative that seeks to address the crucial issue of waste management, ensuring proper segregation and recycling of waste in a manner that protects and restores the environment, ensures the cleanliness and hygiene of neighborhoods and in the process creates sustainable livelihoods for a whole host of participants in the waste management process. The programme also works to create awareness among general public about the "Reduce-

Reuse-Recycle” approach. The programme seeks to inculcate the habit of source segregation prior to collection of waste. The ecosystem of participants involved in the collection and recycling of segregated waste include waste handlers who derive sustainable livelihood from this activity, recycling units who benefit from a steady source of identified and relevant waste, NGOs who train waste handlers and increase awareness about segregating waste among communities, and social entrepreneurs who avail of the opportunity to develop a sustainable business model out of waste collection and supply to recyclers. This programme is today being actively propagated and is receiving widespread support across 8 cities in South India, including Bengaluru, Chennai and Coimbatore and 5 cities in Telangana with plans to extend it to other towns and cities as well. The WOW programme today collects over 20000 MT of waste. Over 2100 waste handlers have gained sustainable livelihoods through this activity. Additionally, similar waste collection and recycling programmes along with composting of organic waste in Munger in Bihar, Saharanpur in Uttar Pradesh and Tribeni in West Bengal provide gainful livelihood to 300 people. These initiatives has played a major role in sustaining ITC’s ‘Solid Waste Recycling Positive’ status for 9 consecutive years.

### DLF Foundation

Kachre Se Kamai Drive Solid waste management is a very important component of the Cluster Development Programme. The Foundation had initiated an innovative community-based waste management and income generation programme called ‘Kachre Se Kamai’( income from waste) in Hassanpur, Sohna, Gurgaon to address the issue of sanitation. To make the system self-sustainable, refuse collection user charges are levied. Further, organic waste is segregated and vermin composted to form manure that is then sold. Being community-based, village panchayats too have now taken ownership of the successful programme. Four units are operational in Kakrola, Hassanpur, Darbaripur and Nawada Fatehpur villages. Further, to augment proper disposal of waste, dustbins have been installed throughout the villages in clusters and regular sanitation drives are also held.
