

Smart City

IMPHAL
SMART CITY PROPOSAL

ANNEXURE 02

| | | | | | SMART CITY IMPHAL |
|--|--|---|--|---|---|
| F | G | Н | I | J | K |
| Scenario 3 | Scenario 4 (ADVANCED) | Self- assessment of the city (for Pan-City Solution) or area (for Area- based development), with regard to each feature | Basis for assessment and/or quantitative indicator (Optional - only if data exists) | Projection of 'where the city wants to be' with regard to the feature/indicator | Input/Initiative that would move the city/area from its current status to Advanced status (Scenario 4) |
| City conducts citizen engagement at city level and local area level with most stakeholders and in most areas. The findings are compiled and incorporated in projects or programs. | City constantly conducts citizen engagement with people at each Ward level to incorporate their views, and these shape priorities and development projects in the city. Multiple means of communication and getting feedback such, both face-to-face and online are utilised. The effectiveness of city governance and service delivery is constantly enhanced on the basis of feedback from citizens. | Scenario 3 | 10.5% of the total population submitted their opinions through Newspaper Clips, Feedback Forms and Social Media. Online Public Grievance Redressal System has been provided to the Citizens by Imphal Municipal Corporation. Regular meetings and competitions held to ensure participation. | Scenario-4 Constant citizen engagement using multiple means of communication and e-governancePromotion of Seminars and workshops to encourage participation | Constant encouragement to Citizen Participation by including the various Community Welfare Associations, NGO's, Local Clubs and Gram Panchayats to be a part of the decision making process. |
| Historic and cultural heritage resources are preserved and utilised and their surroundings are well-maintained. Public spaces, public buildings and amenities reflect the cultural identity of the city; | Built, natural and intangible heritage are preserved and utilised as anchors of the city. Historical and cultural resources are enahnced through various mediums of expression. Public spaces, open spaces, amenities and public buildings reflect local identity and are widely used by the public through festivals, events and activities. | Scenario 3 | Swadesh Darshan is implemented in Kangla area to preserve identity and cultural heritage. | Scenario-4 Imphal should be developed as a tourist hot spot and as gateway to S.E. Asia, leveraging its potential in sports, culture, art, etc There need to be measures taken to build upon the image of Imphal in the minds of the locals as well as the visitors This can be done through development of certain landmarks at strategic locations within the city limits | Special board for preservation and restoration of Kangla fort. Ancient monument preservation Act in place. Culture University is also proposed. Creation of tourist circuit with Kangla Fort as Focus. Convergence projects already proposed. |
| There are adequate job opportunities for all sections of society. But skill availability among residents can sometimes be a challenge. | There are adequate opportunities for jobs for all sections of income groups and skill levels. Job-oriented skill training supported by the city and by industry. Economic activities are suited to and build on locational and other advantages of the city. | Scenario 2 | Work participation ratio; Census 2011 | Scenario-3 Economic activites must be boosted by taking advantage of its location through Act East Policy. Policy intervention so as to increase investment in the field of building construction, business, tourism etc. Also single window clearance for SME's | Through skill development. Enhanced border trade with Myanmar. Ensuring equal Job Opportunities to all. Impetus to be given to Job oriented skill training. Introduction of Vocational Based Education System. |

| | | | | | SMART CITY IMPHAL |
|--|---|---|---|---|--|
| F | G | Н | I | J | К |
| Scenario 3 | Scenario 4 (ADVANCED) | Self- assessment of the city (for Pan-City Solution) or area (for Area- based development), with regard to each feature | Basis for assessment and/or quantitative indicator (Optional - only if data exists) | Projection of 'where the city wants to be' with regard to the feature/indicator | Input/Initiative that would move the city/area from its current status to Advanced status (Scenario 4) |
| City provides adequate primary and secondary education facilities within easily reachable distance for most residential areas of the city. Education facilities are regularly assessed through - databases of schools including number of students, attendance, teacher - student ratio, facilities available and other factors. | City provides adequate and high-quality education facilities within easily reachable distance of 10 minutes walking for all the residential areas of the city and provides multiple options of connecting with specialised teaching and multi media enabled education. Education facilities are regularly assessed through database of schools including number of students, attendance, teacher-student ratio, facilities available and other factors. | Scenario 3 | Literacy rate; Census 2011 | Scenario-4 Composite schools as well as vocational institutes to teach and enhance job based skills need to be incorporated within the education system | Need based upgradation of infrastructure. Facilities like Tele-Education and Online classes. Educatinal Infrastructure needs to be inclusive in nature and all facilities need to be Barrier Free. Neighbourhood concepts of accessibility for all need to be incorporated in all new residential development. |
| City provides adequate health facilities within easily reachable distance for all the residential areas and job centers of the city. It has an emergency response system that connects with ambulance services. | City provides adequate health facilities at easily accessible distance and individual health monitoring systems for elderly and vulnerable citizens which are directly connected to hospitals to prevent emergency health risks and to acquire specialised health advice with maximum convenience. The city is able to foresee likely potential disases and develop response systems and preventive care. | Scenario 3 | Infant Mortality Rate; Census 2011 | Scenario-4 Will develop a quick response team to deal with health emergencies | Will develop a Heirarchical System of health services by proposing Polyclinics, Dispensaries, Health Centres, General Hospitals, Speciality Hospitals and Super Speciality Hospitals |
| Most parts of the city have housing, retail, and office buildings in close proximity. Some neighborhoods have light industrial uses within them (e.g., auto repair, craft production). Land use rules allow for mixed uses. | Every part of the city has a mix of uses. Everyone lives within a 15-minute trip of office buildings, markets and shops, and even some industrial uses. Land use rules require or encourage developers to incorporate a mixture of uses in their projects. | Scenario 3 | As most of the residential areas are privately owned, government control is limited to uses of land and construction thereof. | Scenario-4 Decongest the core area and have clusters of building with similar activites. Restrict Mixed land use in old city areas where the street widths are narrow so as to sort out the movement of people, traffic and goods | Encourage developers to invest in the city, incorporating mixed use. Create a new set of bylaws to facilitate Mixed use for The city of Imphal. |

| | | | 1 | | SMART CITY IMPHAL |
|--|---|--|---|---|---|
| F | G | Н | | J | K |
| Scenario 3 | Scenario 4 (ADVANCED) | Self- assessment of the city (for Pan-City Solution) or area (for Area- based development), with regard to each feature | Basis for assessment and/or quantitative indicator (Optional - only if data exists) | Projection of 'where the city wants to be' with regard to the feature/indicator | Input/Initiative that would move the city/area from its current status to Advanced status (Scenario 4) |
| The city has multiple high density clusters that are easy to walk around where buildings are close together. However, the city actively encourages development to occur on underutilized parcels of land into high-density, walkable areas. When new formal large-scale development projects happen at the periphery, they are encouraged to be dense and compact, with buildings that are close together and line the streets. The city actively encourages or incentivizes redevelopment of under-utilized parcels in the inner-city, especially those located close to public transportation. | The city is highly compact and dense, making the most of land within the city. Buildings are clustered together, forming walkable and inviting activity centers and neighborhoods. Regulations encourage or incentivize re-development of under-utilized land parcels in the city center. Buildings are oriented to the street — and parking is kept to a minimum, located below ground or at the back of buildings. Public transport and walking connects residences to most jobs and amenities. Residential density is at an optimal with affordable housing available in most areas. | Scenario 2 | Imphal City has a low residential density except the core area | Scenario-3 The city actively needs to encourage and incentivize re-development of under-utilized parcels in the innercity, especially those located close to public transportation. | State cabinet decided to move godowns from core area to periphery, bazaar area to be non motorized and encourage pedestrian movement in the core area. We will decongest the City Core through restrictive traffc movement and create pedestrian only areas. Will put in place a Master Plan document for the City which will lay down the norms for future development of the city of Imphal. Proposal to provide cycle tracks to reintroduce use of NMT |
| Most areas of the city have some sort of public open space. There is some variety in the types of public spaces in the city. However, public spaces are sometimes not within easy reach or access of more vulnerable populations and are more restricted in poorer neighbourhoods. | Public open spaces are well dispersed throughout the city. Every residential area and work space has access to open space within 10 minutes walking distance. Open spaces are of various types - natural, green, plazas, parks, or recreation areas - which serve various sections of people. Public spaces tend to truly reflect the natural and cultural identity of the city. | Scenario 3 | Land use Plan and GIS map of Imphal | Scenario 4 The need of the hour is to develop safe and accessible open spaces that are within walkable distance of the residential areas. | Strategies will be made to connect the existing open spaces into a heirarchical system. Also the open spaces attached to historical building will be proposed so as to enhance and maintain the natural, built and cultural heritage as Public spaces tend to truly reflect the natural and cultural identity of the city. |

| | SMART CITY IMPHAL | | | | | |
|---|---|--|--|---|---|--|
| F | G | Н | I | J | К | |
| Scenario 3 | Scenario 4 (ADVANCED) | Self- assessment of the city (for Pan-City Solution) or area (for Area- based development), with regard to each feature | Basis for assessment and/or quantitative indicator (Optional - only if data exists) | Projection of 'where the city wants to be' with regard to the feature/indicator | Input/Initiative that would move the city/area from its current status to Advanced status (Scenario 4) | |
| Housing is available at all income levels, but is segregated across income levels. The growth of supply of housing almost meets the rate of population growth. Increasingly, lower and middle-income people can find housing in areas that are conveniently located. | A wide range of housing is available at all cost levels. The supply of housing is growing at pace with population. Affordable, moderate, and luxury housing are found clustered together in many areas of the city | Scenario 3 | Socio-Eonomic and Caste Census- 2011. | Scenario 4 | The city is included under PMAY-Housing For All Mission. This will improve the existing housing conditions at the same time providing the city with a good residential mix. | |
| Network of streets are fairly complete. Public transport covers most areas of the city. However last mile connectivity remains incomplete -and affects transport options- Foot paths are accessible in most areas, whereas concerns of safe crossings and security throughout the day remain. Parking zones are demarcated but absence of pricing increases over utilization of parking lots. | Street network is complete and follows a clear structure. Public transportation network covers the entire city and intensity of connection relates with the demand. Plenty of options of public transport are available and affordable for all sections of the society. There is multi-modal integration at all mass transit staions and organized-priced on street and off street parking. Walking and cycling is prevalent. | Scenario 2 | There are 26,000 four wheelers (LMV) and 1,35,000 two wheelers in the city as on 31/03/2014. (Transport Department). | Scenario 4 | We will establish a heirarchical system of Road network. Urban transport to be strengthened. Intelligent traffic management and multi-level parking to be established. Designated Pedestrian Precincts to be outlined. Non motorised transport to be given impetus thereby resolving the last mile connectivity issues. | |

| | | | | | SMART CITY IMPHAL |
|---|--|--|---|---|--|
| F | G | Н | I | J | K |
| Scenario 3 | Scenario 4 (ADVANCED) | Self- assessment of the city (for Pan-City Solution) or area (for Area- based development), with regard to each feature | Basis for assessment and/or quantitative indicator (Optional - only if data exists) | Projection of 'where the city wants to be' with regard to the feature/indicator | Input/Initiative that would move the city/area from its current status to Advanced status (Scenario 4) |
| The city has a good network of pavements and bike lanes. Buildings in most areas of the city are easily accessible from the pavement. However, traffic signals are sometimes disobeyed and it can feel difficult to cross the street. | The city is highly walkable. Pavements exist on every street and are maintained. Trees line many sidewalks to provide shade for pedestrians. Buildings in most areas of the city are easily accessible from the sidewalk. Traffic signals control the flow of automobiles and are enforced. A network of bike lanes exists to promote cycling as a means of transport. Traffic rules are followed and enforced with great seriousness. | Scenario 1 | The city is designed mainly for the automobile. Walking is difficult and often dangerous. There are few pavements, existing pavements need repair. Lack trees to provide shade for pedestrians and marked pedestrian crossings are rare. New buildings have their main entrances set-back from the street, sometimes with large driveways or parking lots separating them from the street, and sometimes are are enclosed by gates. Traffic signals are often disobeyed | Scenario 3 | Development of multi-modal integrated transport system. Encourage NMT. Rectification of junction design. Also dedicated pedestrian only walkways, pavement and lanes designed with adequate street furniture after the remodelling of commercial facades |
| The city makes has high speed internet connectivity available in most parts of the city. | The city offers free wifi services to provide opportunity for all the citizens to connect with high speed internet across the city. | Scenario 2 | The city has made plans to provide high speed internet connectivity through the existing framework (as observed during field visits) | Scenario-4 | Establishment of Wi-Fi hot spots and towers at suitable places. Also integrated card (smart card) for on line bill payments, online complaint portal and online grievance redressal system. |
| Most of the services are provided online and offline. Data transparency helps monitoring. Systema and processes to better coordinate between various Government agencies are being developed. | All major services are provided through online and offline platforms. Citizens and officials can access information on accounting and monitor status of projects and programs through data available on online system. Robust data infratsructure system shares information and enhances internal governmental coordination. | Scenario 1. | Field visits and interaction with stakeholders showed that Some of the public services are provided online and infrastructure for total digitalization is not in place. Service delays occur regularly in some sectors. Responses to citizen inquiries or complaints are often delayed. No integration between services and billing. | Scenario-4 | Interactive portals to be made mandatory. Digitizing all the official data. Integration of payment gateways. |

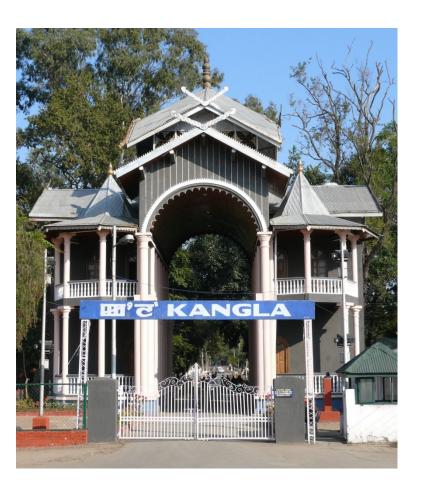

| | | | | | SMART CITY IMPHAL |
|---|--|--|--|---|--|
| F | G | Н | I | J | K |
| Scenario 3 | Scenario 4 (ADVANCED) | Self- assessment of the city (for Pan-City Solution) or area (for Area- based development), with regard to each feature | Basis for assessment and/or quantitative indicator (Optional - only if data exists) | Projection of 'where the city wants to be' with regard to the feature/indicator | Input/Initiative that would move the city/area from its current status to Advanced status (Scenario 4) |
| Electricity is available in most parts of the city for most hours of the day but some areas are not so well-served. Smart metering exists in some parts of the city but not all. | Electricity is available 24 x 7 in all parts of the city with smart metering linked to online platforms for monitoring and transparency. | Scenario 3 | Field visits and interaction with stakeholders and Manipur State Power Distribution Company Limited. | Scenario-4 | Through reduction of power theft. |
| Some energy consumed is the city is produced through renewable sources. There are long term targets for higher renewable energy capacities and the city is making plans to achieve these. | At least 10% of the energy used in the city is generated through renewable sources. The city is undertaking long-term strategic projects to tap renewable sources of energy in its region/beyond to increase the percentage of renewable energy sources. | Scenario 2 | Manipur Renewable Energy Development Agency. | Scenario-4 | Finalised Agency for Waste to energy plant. Solar roof top harvesting incorporated in Building Bye-Laws. Hyro electrical Projects, Rain water harvesting Some energy consumed is the city is produced through renewable sources. There are long term targets for higher renewable energy capacities and the city is making plans to achieve these. |
| The city has 24 x 7 water supply in most areas but the quality of water does not meet international health standards. Unaccounted water loss is less than 20%. | The city has 24 x 7 treated water supply which follows national and global standards and also available in suffecient quantity and affordable across all sections of the society. Unaccounted loss less than 15%. | Scenario 1 | Field visits and interaction with stakeholders and Public Health Engineering Department. | Scenario-4 | The situation may improve after the completion of Phase-I integrated water supply system under JnNURM. This will be strengthened with the implementation of AMRUT which may ensure 24x7 water supply. Smart systems like MIS and SCADA to be introduced. |
| The has meters for all its water supply with some smart mechanisms to monitor. Rainwater harvesting systems are installed and storm water is collected and stored in water bodies. However, recycling of waste water and reusage of storm water is limited. | The city has meters for all its water supply. It includes smart mechanisms to monitor remotely. Rainwater harvesting systems are installed and utilised through the city and storm water is collected and stored in water bodies and treated for usage. Recycled waste water is supplied for secondary uses. | Scenario 1 | Field visits and interaction with stakeholders and Public Health Engineering Department. | Scenario-4 | Mandate in bye-laws for RWH. Smart systems like MIS and SCADA to be introduced. Also sustainable techniques to be deployed for groud water recharge, conservation of surface run off and rain water harvesting. |

| | | | | | SMART CITY IMPHAL |
|--|--|--|--|---|---|
| F | G | Н | I | J | К |
| Scenario 3 | Scenario 4 (ADVANCED) | Self- assessment of the city (for Pan-City Solution) or area (for Area- based development), with regard to each feature | Basis for assessment and/or quantitative indicator (Optional - only if data exists) | Projection of 'where the city wants to be' with regard to the feature/indicator | Input/Initiative that would move the city/area from its current status to Advanced status (Scenario 4) |
| All the waste water is collected and treated before before disposal. It is also treated to a high standard and some is recycled. | The city has zero waste water because all the waste water is collected, treated and recycled. It meets standards an reduces the need for fresh water. | Scenario 1 | Field visits and interaction with stakeholders and Public Health Engineering Department. | Scenario-4 | Laying of mainlines under the Phase-I of the Sewage project is 99% completed. Construction of STP is also completed. Situation will improve as soon as the households are connected to the main Sewers. |
| City has programs and projects to monitor air quality and spatialising the data to ascertain reasons for degrees of pollution in the air. Pollution levels are acceptable. | The city has clean air by international standards. Live Air quality monitoring cover the entire city and data of air quality are mapped. | Scenario 2 | CPCB Data | Scenario-4 | regular monitoring of air quality. In future CNG may be introduced as a solution. Strict implementation of norms laid down by the CPCB and NGT |
| Most new public buildings install energy effeciency systems and some older buildings are also retrofitted to be more energy efficient. Local government conducts counselling and outreach with developer, businesses and residents to adopt energy effeciency strategies | All the existing old and new public buildings employ energy effeciency principles in development and operation and apply for energy rating by national and international forums. Many non-public buildings are also energy efficient because the government promotes energy efficiency through incentices and regulations. | Scenario 3 | Field visit and discussion with MSPDCL official. | Already in Scenario-4 | Smart Metering done. Solar power harnessing is actively pursued. |
| More than 75% of the city has underground electric wiring system. | More than 90% of the city has underground electric wiring system. | Scena rio 3 | Annual Report of MSPDCL | Scenario-4 | A.B. Cabling which prevents thefts and losses. |
| Sanitation facilities are available to 90% of the city's population. | Sanitation facilities are available to 100% of the city's population. | Scenario 3 | Census data | Scenario-4 Segregation of solid waste is required. | More community and public toilets. Toilet locator Apps to be updated regularly. |
| Waste is segretated, collected, recycled and disposed in an environmentally sound manner. | The city reduces land fill caused by waste so that it is minimal. All the solid waste generated is seggregated at source and sent for recycling. Organic waste is sent for composting to be used for gardening in the city. Energy creation through waste is considered. | Scenario 3 | Data from PDA and IMC. Other than segregation at source a good system is in place. | Scenario-4 | Waste to Compost initiated. The Agency has been finalised for Waste to Energy plant. |

| | | | | | SMART CITY IMPHAL |
|---|--|---|--|---|---|
| Scenario 3 | Scenario 4 (ADVANCED) | H Self- assessment of | Basis for assessment and/or quantitative indicator (Optional - | Projection of 'where the city wants to be' with regard to the | Input/Initiative that would move the city/area from its current status to |
| | | the city (for Pan-City Solution) or area (for Areabased development), with regard to each feature | only if data exists) | feature/indicator | Advanced status (Scenario 4) |
| The city has high levels of public safety - all citizens including women, children and the elderly feel secure in most parts of the city during most time in the day. | The city has very high levels of public safety - all residents feel safe in all parts of the city during all hours of the day. | Scenario 3 | Data from Home Department | The city has high levels of public safety - all citizens including women, children and the elderly feel secure in most parts of the city during most time in the day. | Surveillance for 24x7. random checking at specific sites. |

Topography

• Valley area - relatively flat and supports growth and development.

Suitable Climatic Conditions

•Climatic conditions favourable for humans and development. Moderate weather supported by low level of pollution

History

•Imphal houses the ruins of the Kangla Palace of the erstwhile Manipur Kingdom. It has potential to grow as a sustainable city.

Culture and tradition

The state has a Cultural Policy of its own and a Cultural University. The women enjoy equal status and opportunity in the society.

Sports Power house

Educational hub of the region

• Medical institutions, Central Government University, along with other national level institutions make the city an educational hub.

Connectivity

International Airport . NH-2, NH-53, NH-102 & NH-150 through the city is also known as Trans-Asian Highway & connects to Myanmar

Unplanned and Haphazard Development

 Existing water supply network is beyond its design period, thereby causing 40-50% of water loss through leakages. Inadequate sewerage network

Non- Conformance to Regulations

 Urban planning and land use regulation are not followed in several cases and this has an adverse affect on the

Enhanced Traffic Congestion and Pollution

At present the city has no public transportation system for its people. Rise in numbers of cars and shared auto-rickshaws add to the traffic congestion in the city and increase the level of air and noise pollution.

Railway

• Absence of rail connectivity also causes major hurdle in transfer of heavy goods and equipment by increasing transportation cost..

Poor infrastructure

•Existing water supply network is outdated beyond its design period, thereby causing 40-50% of water loss .Inadequate sewerage network facilities.

Weak economic base

• Most of the people are engaged in service sector. Absence of industry in the city and its nearby area is leading to rise in unemployment and encouraging insurgency.

Public Transportation

• At present the city has no public transportation system for its people.

Negative Image

•Outsiders tend to see the city as having serious law & order problems, as well as being inhospitable.

Immense Tourism Potential

•Imphal has various tourism sites within the city such as Kangla fort, Bir Tikendrajit park etc. with good road connectivity. If exploited in a planned manner, tourism can boost the economy of city and will also

Sports Hub

•Government of India has decided to set up a Sport University in the state. This will encourage and support the budding sports talents. Imphal can become the hub sports for the North East Region.

IT sector

State's first SEZ is coming up in the city. This SEZ in IT sector is expected to boost the IT sector in the region along with strengthening economy and generating employment opportunity.

PPORTUN

THESE FIVE ACTIONABLE ELEMENTS DESCRIBE THE VISION

1. Revitalization of Central Business District

2. Tourism and Heritage Precincts

3. Smart Mobility

4. Smart Infrastructure

5. Smart Governance

PAN CITY PROPOSAL

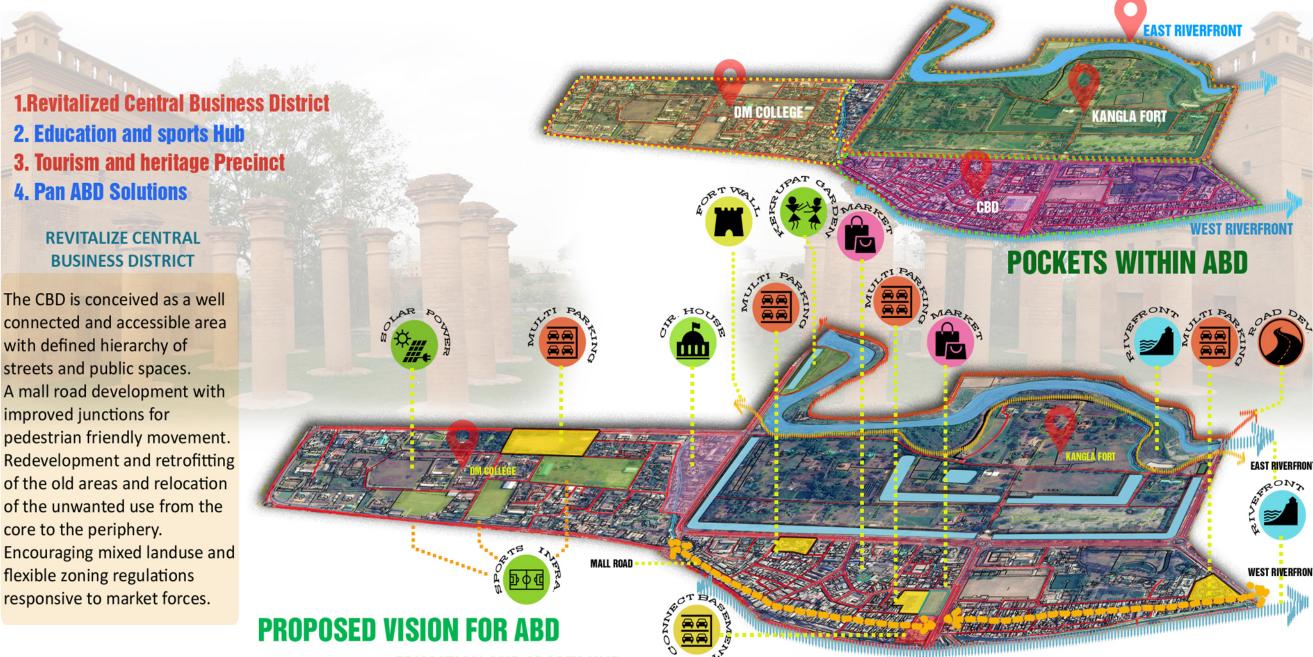

Urban Mobility was the major issue highlighted by the Citizen which made up 33% of the Overall suggestions.

3.5 STRATEGIC PLAN- Urban Revitalisation & Regeneration

| 5 CITY VISIONS | 18 BUILDING BLOCKS AND DIRECTIONS | 42 CITY GOALS |
|---------------------------|---|--|
| REVITALISATION OF | BD 1. Development Of Pedestrianised Mall Road | G1: Decongested the area G2: Reduced pollution G3: Introduced open/ green spaces G4: Employment generation G5: Created identity through ambience improvement |
| CENTRAL BUSINESS DISTRICT | BD 2. Multi Level Car Parking With Commercial Component | G6: Systematized parking G7: Optimized use of public space G8: Released space for pedestrian and cycle movement |
| | BD 3. City Level Plaza And Greens With Creation And Protection Of Open Spaces | G9: Increased social interaction G10: Improved quality of life |
| | BD 4. Rehabilitation Of Informal Shops | G11: Job creation to achieve economic goals G12: Increase the commercial base with focus on women |
| | BD 5. River Front Development With Focus On Sports And Recreation | G13: Revitalisation of water ways G14: Improve urban form by conserving and promoting natural resources G15: Pollution control |
| TOURISM & | BD 6. Identification Of Tourist Resources | G16: Rejuvenation of natural and built heritage G17: Promotion of cultural heritage through fairs and festivals like sangai festival |
| HERITAGE PRECINCTS | BD 7. Tourism Infrastructure | G18: to provide conducive environment through provision of tourism infrastructure G19: Tourist friendly streetscape & commercial hubs |
| | BD 8. Regional & Economical Linkage | G20: To create a regional tourist circuit & infrastructure linking Imphal to Moirang- Khojom- Moreh |
| SMART MOBILITY | BD 9. Intra City Connectivity | G21: hierarchy of roads G22: Concept of bypass and ring roads G23: Multi modal transportation system G24:Multilevel car parking |
| | BD 10. Encourage Role Of NMT | G25: Dedicated road network for NMT G26: Last mile connectivity |
| | Bd 11. Urban Traffic Management | G27: Intelligent transportation system G28: Improvement of nodes and junctions |
| SMART | BD 12. Improvement Of Physical Infrastructure BD 13. Improvement of social infrastructure | G29: Inclusive education and skill based education G30: Improvement in health services |
| | BD 14. Future Proofing | G31: Solar city G32: Rain water harvesting G33: Disaster management system |
| | BD 15. Building The Future BD 16. Sports Hub | G34: Wifi hot-spots G35: CCTV monitoring for safety and security G36: Smart card G37: City information system |
| COMART | BD 17. E-governance | G38: Participatory decision making G39: Single window system |
| SMART GOVERNANCE | BD 18. Fiscal Sustainability | G40: PPP model G41: GIS based property management system G42: Incentives and subsidies for private investors |

AREA BASED DEVELOPMENT: Image building of the city

AREA PROFILE The citizens of Imphal have identified an area of 541 acre for retrofitting and redevelopment. The area identified for area based development comprises of Core city under wards 24 &25, Kangla fort and DM college campus, adjoining riverfront and the core commercial area with Ema market.

HERITAGE AND TOURISM PRECINCT

KANGLA FORT REJUVENATION PROGRAM

- -Conservation and up gradation of 230 acres of Kangla Fort Area into a prime destination for all -local & tourists.
- -Riverfront development on the East and West river.
- -Amalgamation of heritage green into city greens.

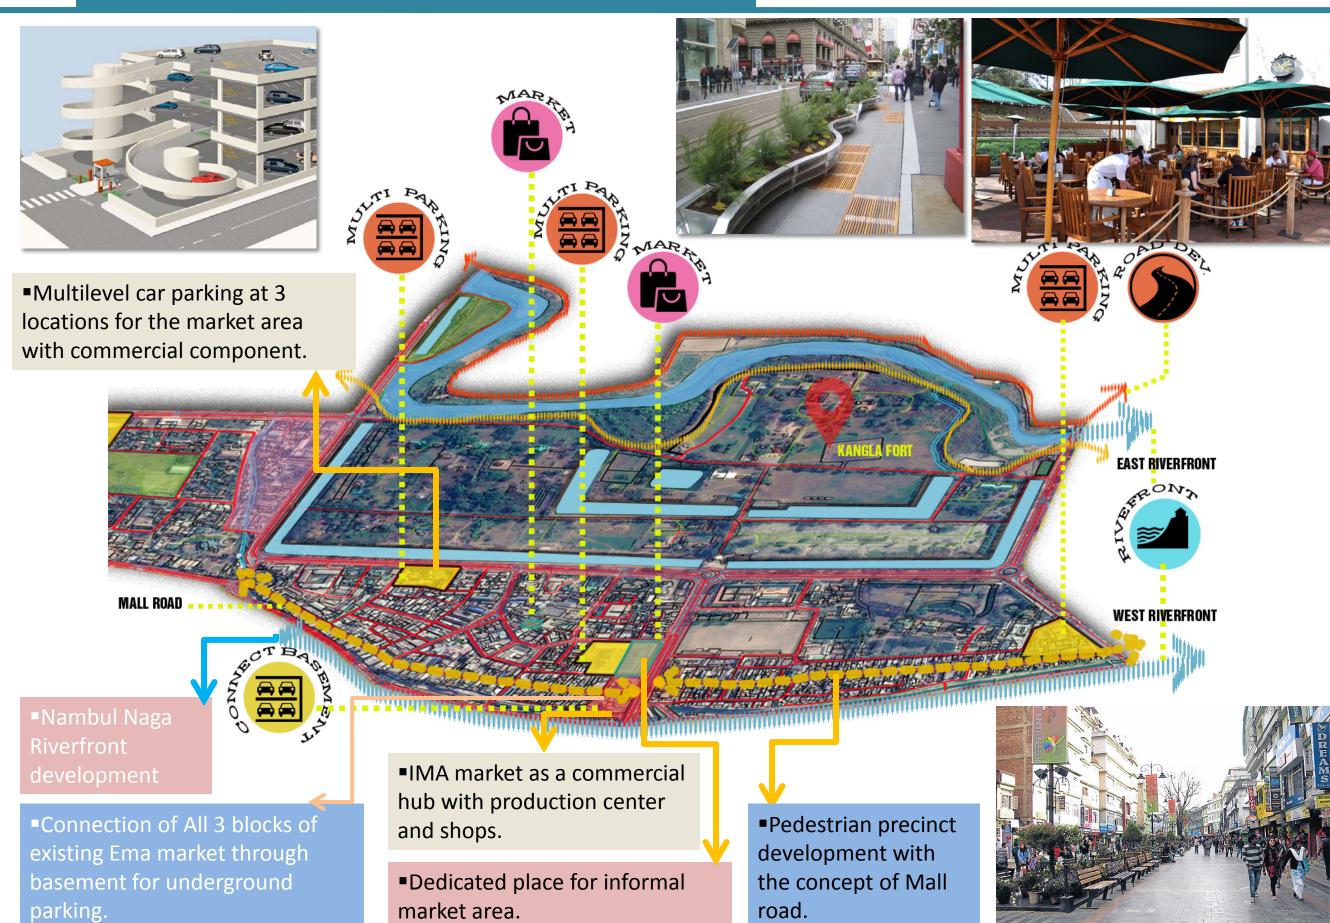

EDUCATION AND SPORTS HUB

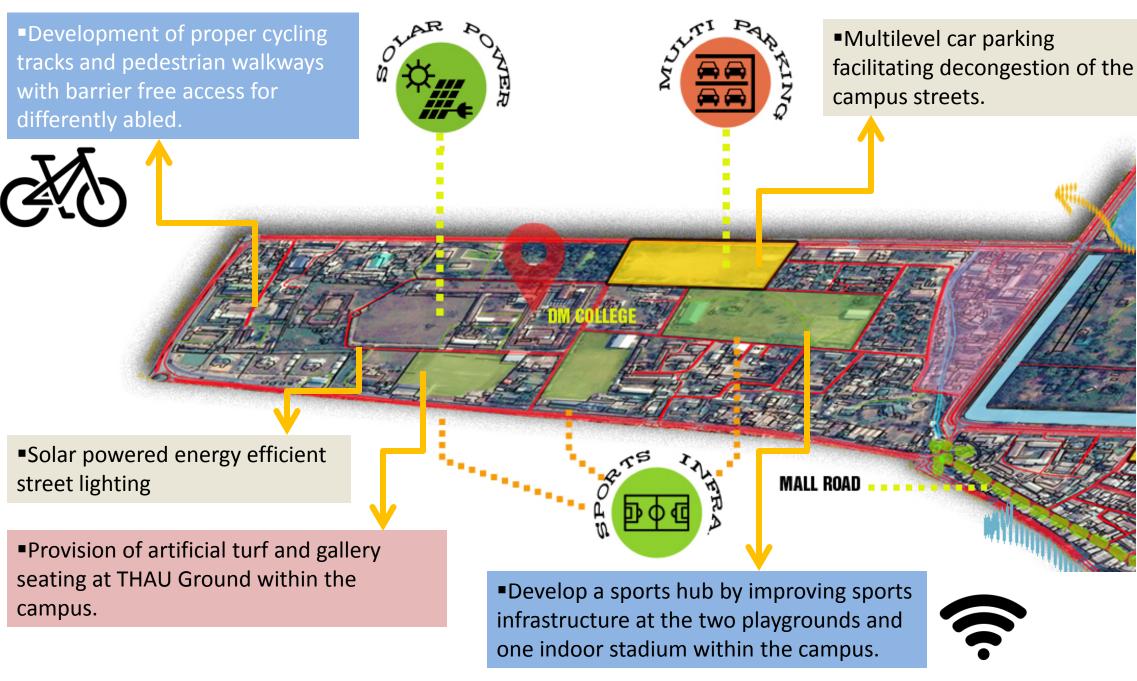

DM COLLEGE

- -Redevelopment and retrofitting of 133 acres of the D.M. College Campus into an Institutional space.
- -Providing of hubs of student activity with dedicated precincts integrated with the surrounding area.
- -Development of sports infrastructure in the college campus.

PAN ABD SOLUTIONS

- -SMART MOBILITY- Real time connectivity of people and vehicles through city wifi hotspots. Promoting pedestrianization and cycles.
- -SMART INFRASTRUCTURE- Connecting services and infrastructure through internet based system for easy discharge, management and monitoring.
 -SMART GOVERNANCE- Electronic Surveillance
- and security network for quick alert and response.

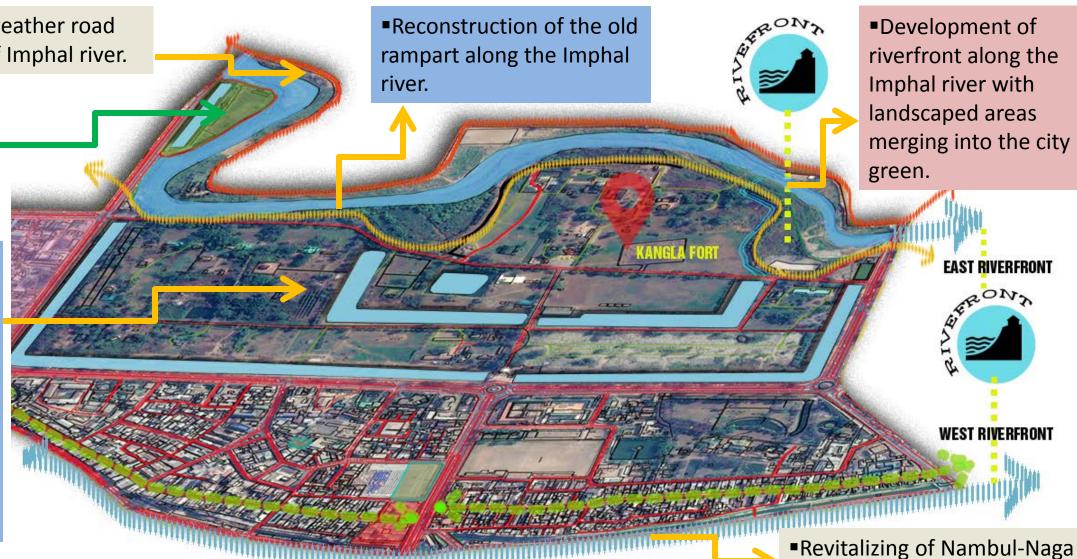

3.9 ABD: TOURISM AND HERITAGE PRECINCT

Proposing an all weather road on the east bank of Imphal river.

 Proposing development of Kekrupat as garden cum open space.

■Kangla
Rejuvenation
Program (KREP) —
Conservation and
upgradation of
230 acres of
Kangla Fort Area
into a prime
destination for all
- local & tourists.

RIVERFRONT DEVELOPMENT ALONG THE IMPHAL AND NAMBUL RIVER

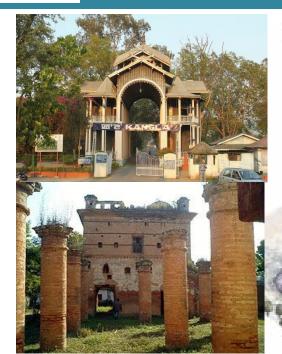

river through filtration and

3.10 ABD: KANGLA REJUVENTATION

Rejuvenation of sacred water bodies & Landscape development around Yai Ghangkei Puri, Wangon pukri, Nunjeng Pukri & Lai Pukri

- Light & Sound show
- Visitor Interpretation Center & conveyance

Adaptive reuse of heritage structures for galleries of

- 1. Meitei culture, cosmology and the religious history
- 2. Intangible heritage of Imphal
- 3. Interpretation of the lost areas of kangla fort
- 4. Polo gallery

- Bridge Imphal River Lai Pukhri | Outer Moat | Nungjeng Pukhri | Western gate
 - Proposals for construction of traditional exhibition huts, rock garden, fountain in front of Pakhangba temple
 - Solar yard Lighting
- Proposing IT based ticketing & feedback system
- Smart parking management
- Smart heritage walks with tourist designated pathways conveyances with barrier free access.

- Proposing a cultural hub
- Light & sound show
- Restoration of inner and outer moat
- Street & Landscape furniture
- Restoration of heritage structures in Kangla fort
- Conservation, Preservation and new constructions of East boundary wall of Kangla Fort.
- Capacity building & skill development center
- Smart signage/ Installation of audio guides
- Theme parks
- Smart site management: drainage
- Construction of dance performance platform in front of Shri Shri Govindji temple.

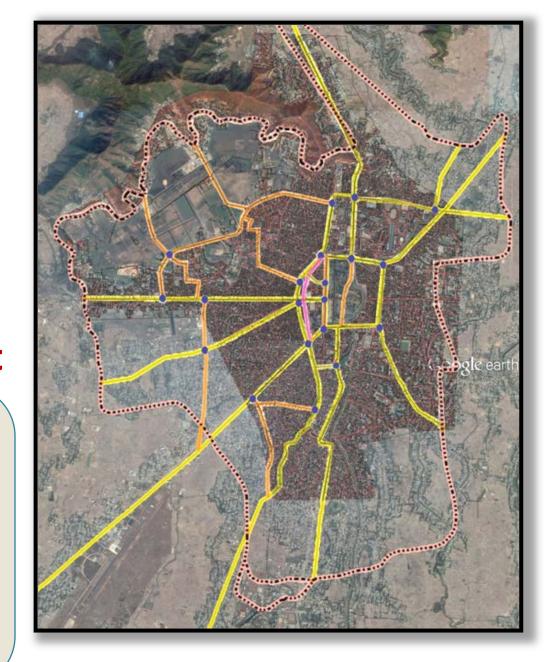

PROVIDING FOOTPATHS, CYCLE TRACKS WITH SHELTERS TO PROMOTE NON MOTORISED MOVEMENT.

TO ACHIEVE THE VISION OF A SUSTAINABLE, ENVIRONMENT FRIENDLY FUTURE IMPHAL

IMPHAL SMART OPERATIONS COLLABORATIVE (ISOC)

Safe **Traffic** Responsive transportation mobility management

- 1. IMPHAL CITY SMART MOBILITY MANAGEMENT SYSTEM ICSMMS
- 2. IMPHAL CITY INTEGRATED ASSET MANAGEMENT SYSTEM ICIAMS
- 3. IMPHAL CITY UNIFIED COMMUNICATION, COLLABORATION AND INFORMATION SHARING CLOUD PLATFORM - ICUCCISP
- 4. IMPHAL CITY SOLID WASTE MANAGEMENT SYSTEM ICSWMS

IMPHAL ROAD MAP

LEGENDS

National highway

Major road

Mall road

Ring cum bypass road

Junction

3.12 PAN CITY PROPOSAL- MOBILITY

Proposal Of Cycle Tracks And Pedestrian Walkways

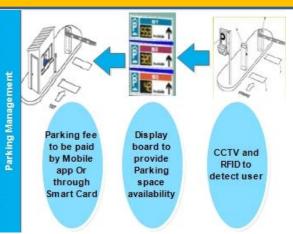

Separate un-interrupted cycle tracks and pedestrian walkways are proposed with cycle stands & shelters, running parallel to the main roads of the city.

- WIDTH OF CYCLE TRACK (ALONG ONE SIDE OF ROAD) = 1.5 M
- -WIDTH OF PEDESTRIAN WALKWAY (ALONG BOTH SIDES OF ROAD)= 1.5 M

STREET SECTION

1. IMPHAL CITY SMART MOBILITY MANAGEMENT SYSTEM (ICSMMS)

- 1. Smart Parking Management
- 2. Smart Traffic Light Management with real time data analysis and adaptive signaling (STLM)
- 3. Command and Control Centre Management (CCCM)
- 4. Towed Vehicle Management (TVMS) with lot and dispatch management
- 5. Automatic Number Plate Recognition using cameras (ANPR)
- 6. Mobile Based Vehicle and Driver License Checking System (MVRDLCS)

1. IMPHAL CITY SMART MOBILITY MANAGEMENT SYSTEM (ICSMMS)

Emergency Incident Alert & Response Management System for Imphal city receipt of alert and despatch of ERT Send notice to nearby ERT to initiate immediate Mobile app Acknowledge on receipt of notification Dispatch Emergency service erts with Geo code vehicles with trained personnel Send notice to nearby Press Panic button is Mobile team for help Acknowledge on receipt of notification Web based EIARS System for Central Control Room and Mobile App for public & ERS Mobile team

City surveillance solution

- - Command & Control Center Management

7. Imphal City Public Mobility Assistance System (ICPMAS)

Incident happened

- 8. Emergency Incident Alert and Response Management System (EIARS)
- 9. Wifi using fiber optic laid across pan city 250km road with 500 hot spots
- 10. Imphal City Digital Road Guidance System with landmarks (ICDRGS)
- 11. E-Challan Application for traffic rules and parking violations
- 12. IT solution for Integrated Multimodal Transportation Hub, being proposed by the state

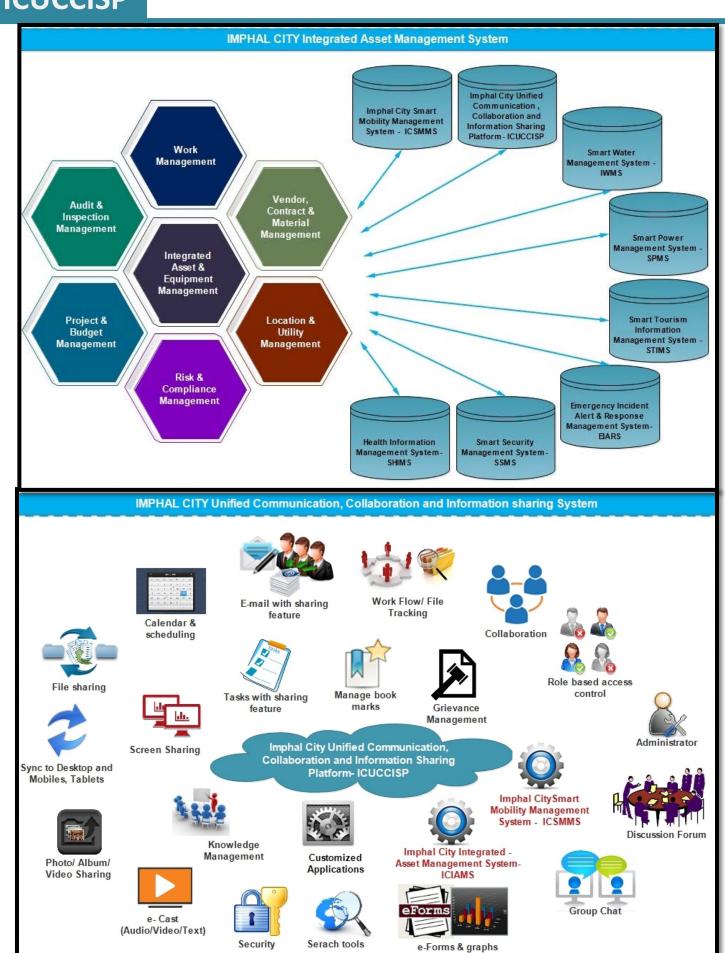

2. IMPHAL CITY INTEGRATED ASSET MANAGEMENT SYSTEM (ICIAMS)

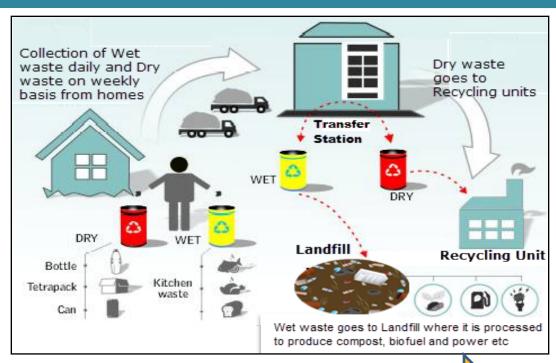

Effective management of Pan city assets like roads, bridges, emergency vehicles, traffic signal equipments, control panels, CCTV equipments, Wifi access points and FO network

3. IMPHAL CITY UNIFIED COMMUNICATION, COLLABORATION AND INFORMATION SHARING CLOUD PLATFORM (ICUCCISP)

The proposed solution will provide a platform to share & cross share information, ideas, innovations , knowledge, practices and documents among the workers, sections, department s and public.

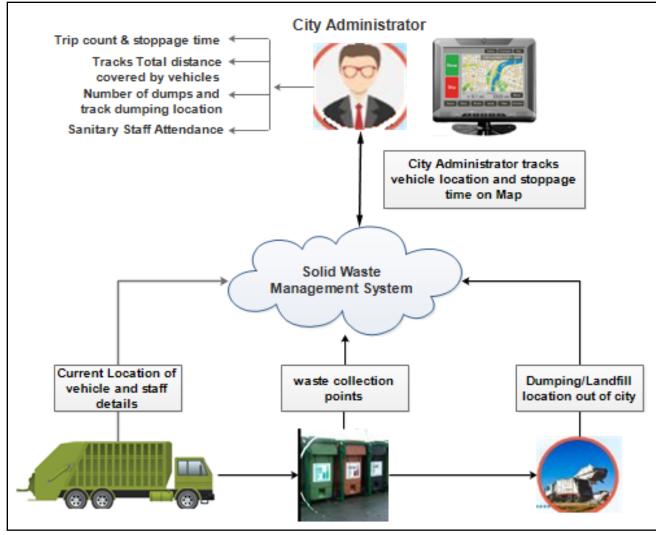

3.15 PAN CITY PROPOSAL-SOLID WASTE MANAGEMENT

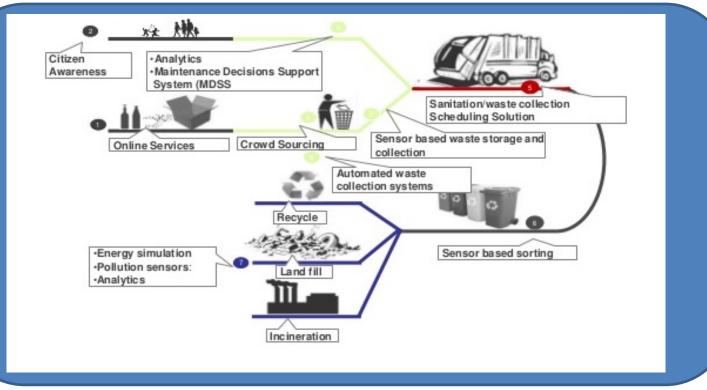

4. IMPHAL CITY SOLID WASTE MANAGEMENT SYSTEM

This solution is to monitor solid waste management process starting from waste collection from city dustbins up to disposal of the harmful waste materials at appropriate place at a far distance from local public place.

3.16 FUTURE PROOFING IMPHAL

PROPOSALS:

Structural Stability Earthquake Resistance

 Enforcement of Building bylaws for any new construction and retrofitting old construction for earthquake proofing also increasing the level of Disaster Preparedness

Energy Efficiency Initiative

 Reducing energy consumption and ensuring Sustainable Energy through programs such as SE4ALL, DELP for energy efficient lighting, Energy efficient water pumps and Solar water heaters. Introduce Sustainable Alternate Energy Initiatives

Solar City Programme

 Introducing Roof Top Solar project with 2MW Solar energy generation on existing public building Premises, 7MW on roof tops of new developments, 1MW on retrofitting of private building.

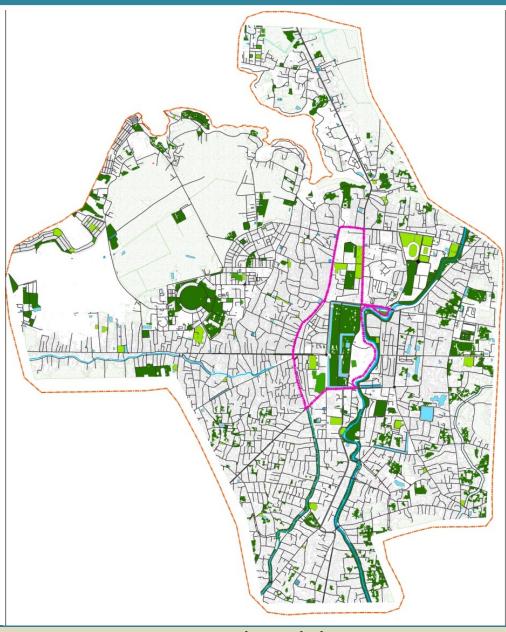

Urban Flooding- Early Warning System

• Installing Early Warning Sensors for better preparedness and to mitigate the impacts of flooding. Environmental status monitoring through Environmental Sensors

Incident and Disaster Management Plan

• Preparation and annual up-gradation of Integrated Disaster Management Plan for Smart District and neighborhood level. Organizing Mock Drills for capacity building of staff

Composite Vulnerability Map

35% of the city area are Flood Prone areas

100% of the city area are under Seismic Zone 5

IMPHAL
SMART CITY PROPOSAL

ANNEXURE 02

IMPHALSMART CITY PROPOSAL

ANNEXURE 04

Date: 15th April, 2016

To,

Executive Officer, Imphal Municipal Corporation, Imphal, Manipur India

Sub: Letter of Support for Implementation of Smart City ICT solution for Imphal.

Dear Sir,

This has reference to the discussion held on the subject. We understand that the city of Imphal is one of the strong contenders in Fast Track Smart City Challenge under Smart City Mission by Ministry of Urban Development (MoUD), Government of India. We hereby confirm to work as a technology partner for the city of Imphal for Smart City Mission.

Thanking You,

Sincerely,

Santanu Chakraborty

Refer: Our various discussions

Sub: Letter of Support for Implementation of Various Smart City ICT Systems for Imphal

Dear Sir

We are pleased to inform you that we along with our associate M/S UR International , USA ,will be happy to partner with Imphal Municpal Corporation for implementation of following systems as a part of your smart city initiatives.

- 1) Integrated Asset Management System
- 2) Towed Vehicle Management with Lot and Dispatch Management Systems
- 3) Emergency Incident Alert and Response Management System
- 4) E-Challan
- 5) Solid Waste Management System
- 6) Power Outage Management System
- 7) Street Light Service Management System

This letter may be formalized by issuing a Letter of Intent at your end and communicated to us.

Please feel free to contact the undersigned for any further clarifications.

Thanking you,

Sincerely,

Bishnu P. Samal

Director

The Executive Officer
Imphal Municipal Corporation
Imphal, Manipur

Sub: Letter of Interest for partnering with Imphal Municipal Corporation for skill development and training

Dear Sir:

This is with reference to our discussion; we are pleased to offer our services as partner for skill development and training in the areas of urban infrastructure, management and public service delivery. We have a decade long experience in imparting such programs very effectively and efficiently.

Your look forward to work with you.

Best regards,

Pradeep Panwar

Director

MEMORANDUM OF UNDERSTANDING
BETWEEN GOVERNMENT OF MANIPUR & THE FRENCH CONSORTIUM
FOR

CONTINUATION OF PROJECT SEWAERAGE INFRASTRUCTUERE (PHASE I) OF IMPHAL BEYOND MARCH 31⁵⁷ 2014.

The MOU is made on February 16th, 2014 between The Government of Manipur represented by Mr.

And

The French consortium represented by Mr. F Colson and constituted by:

AQUA TECHNIQUE INGENIERIE (hereafter refer to as A.T) 65 rue des Cevennes -75015 Paris,
FRANCE.

And

DEGREMONT India (hereafter referred to as DGT)- Gurgaon- India Hereafter referred to as the "Consortium".

Whereas

The Government of French have assisted in kind (machineries worth ₹ 41.54 crs in 2003), the setting up of a Sewerage Treatment Plant and the corresponding pipe network in Zone-1 of Imphal city. The project was name as SEWAGE INFRASTRUCTURES (PHASE-I) of Imphal.

Discussion and negotiations have been held since 1996 and finally the agreement for implementation of the Sewage Project in Imphal was signed between the Govt. of Manipur and the French consortium on 2nd Dec 1998 for FF 59.17 million. Two agenda were agreed upon on 26th Nov 99 and 17th July 2000 respectively and finally the project was included in the Indo—French Financial Protocol (signed on 4th Dec 2011) for Euro 8.73 million. The project was finally notified on 7th Aug 2002 and came into force on 16th Sept 2002.

The foundation stone was laid on 5th march, 2002 by the then Governor of Manipur, H.E *Mr. Ved Marwah* in the presence of *Mr. Francis Widmer*, secretary General, French Embassy, Delegates from the French companies and seniors officials from the Govt. of Manipur

The Ministry of Urban Development, Govt. of India, New Delhi (which is in line with Ministry concerned by this project) has accorded its approval to the project at FF 57.3 m for the French component at an estimated cost of 93.21 crores (for state component)

Simultaneously to the foundation stone laying in march 2002, and even before the project was notified, the consortium and PHED had embarked on implementation of the project, to save time and to take care of unforeseen delays.

Implementation of the project was started in right earnest by both sides. A number of French engineers and experts visited Imphal, as per schedule, to carry out successive and planned tasks, such as the topographical surveys, master plans studies, designed of the network, design of the plant, civil works guide drawings and comments, network supervision and co-ordination of works, underground piling for STP structures and RCC mains etc

The completion of the project was envisaged for March 2006, but due to the delays, for reason (not attributable to the consortium) of more than two (2) years, the project completion deadline of 31st march 2006, stipulated in the contract, could not be met. The financial protocol and the associated admission governing the original contract expired on 31st March 2006 and there was no response to it's extension since the *Government of India* had ruled out all bilateral aid from French.

Nevertheless, in order to realize the project properly and in public interest, the consortium entered into successive MOUs with the PHED(public health Engineering Department) to continue to provide uninterrupted assistance for the additional years (beyond march, 2006).

Successively MOUs were signed on eventual chargeable basis depending on price adjustment respectively on .

- 1. Jan 23rd 2006
- 2. March 20th 2008
- 3. April 28th 2010
- 4. March 9th 2011
- 5. February 15th 2012
- 6. April 16th 2013

These eventual price adjustments were transferred on to AT's account after obtaining administrative approval of the government of Manipur.

The sixth MOU (signed on February-April 16th 2013) was made for uninterrupted continuation of the consortium's supervision for one additional year until 31 march 2014.

During the 24th technical meeting at Imphal (on November 11th to November 13th 2013), it was again recognized that the date of start up of the STP of 31st March, 2014 could not be met and the present MOU should be entered into for uninterrupted continuation of the Consortium's supervision of the project for one additional year beyond march 31, 2014, which means up to 31st March 2015.

COSTS ADJUSTMENTS FOR UNINTERRUPTED SERVICE

Therefore it is hereby agreed that:

 Considering that the revised planning has been shifted by sixty seven (67) months in all and is now set as per the following revised milestones:

| , | End of civil works finished of STP | | 31-12-2013 |
|---|--|-------|--------------------------|
| | End of AB line and PS5 civil works | | 31-03-2014 |
| | Preparation of erection (inventory of equipment) | from | 15-07-2013 to 31-01-2014 |
| | Erection of STP and additional repairs | from | 01-02-2014 to 30-09-2014 |
| | Brushes repairs (incl. manufacturer assistance) | until | 31-12-2014 |
| | Start up and commissioning of STP | from | 1-10-2014 to 31-12-2014 |
| | Inventory of equipment of pumping station | from | 30-11-2013 to 13-12-2013 |
| | Erection of pumping station | until | 31-06-2014 |
| | | | |

- 2. Considering that the following contractual services have still to be carried out. i.e
 - The erection supervision of the STP and of the five (5) pumping station.
 - The STP start up, commissioning and initial running supervision.
 - The training in France of PHED engineers.
- The management and co-ordination for the above tasks.
- Considering both the French cost variation of the remaining French services to be taken into
 account for the additional execution period, and the risks due to the present global
 economical conditions.

4. Considering some changes done in the final execution of the civil works of the pumping stations involving some additional checkup and studies;

The corresponding extra-costs adjustment for the above-mentioned coordination and AT's services are:

€ 80 000 EI (eqvt 67,73 Lakh INR at a present rate of 84,67 INR per € 2)

Note:

Taxes: In accordance with Art 16 of the original Agreement signed between the Government and the Consortium in Dec 1998, all remuneration due to ATI under this MOU is net and free of all present and future Indian taxes, customs duties, service tax, levies and penalties thereto levied by the Govt of India and/or Govt of Manipur..

Payment terms and condition:

The payment terms are hereby agreed to be as follows:

- 100% of the services (i.e; 80 000,00 eighty thousand €uros) being effective before March 31st, at the latest.
 - By SWIFT transfer to AQUA TECHNIQUE INGENIERIE's account which is: Societe Generale — Agence Paris Convention, N° 30003 03543 00020338101 15 IBAN: FR76 300030354300020338101 15

The Commissioner MAHUD, Government of Manipur.

Subject:- Outsourcing the Collection and dumping of garbage within the area covered by the road from Khuyathong crossing to Keishampat Junction via western Kangla gate and the Governor's gate and from Keishampat Junction to Khuyathong crossing again via Maharani bridge.

Sir.

Council, due to the various factors, in the collection and dumping of garbage within the area covered by the road from Khuyathong crossing to Keishampat Junction via western Kangla gate and the Governor's gate and from Keishampat Junction to Khuyathong crossing again via Maharani bridge, the Imphal Municipal Council vide Resolution Misc.No.2 taken in its meeting held on 30/10/2013 had decided that collection and dumping of garbage within the said area of Imphal city may be outsourced to other suitable Agencies/NGOs for a period of 6 (six) months to begin with and if their service is satisfactory further extension may be made. An Extract copy of the Imphal Municipal Council Resolution Misc.No.2 dated 30/12/2013 is enclosed.

It is, therefore, requested that further necessary action for outsourcing the collection and dumping of garbage within the said area may please be taken up by the State Government through the Directorate of MAHUD by providing special package of fund for the said outsourcing.

Enclosed - as stated above.

Yours faithfully

(W.Rajen Singh) Executive Officer

Imphal Municipal Council

Copy to:-

Misc. No. 2

The meeting discussed the pros and cons of the proposed programme of outsourcing the collection and dumping of garbage within the area covered by the road from Khoyathong crossing to Keishampat junction via Western Kangla Gate and the Governor's Gate and from Keishampat junction to Khoyathong crossing again via Maharani bridge. The outsourcing may be done for a period of 6 months to begin with and if the service is satisfactory further extension may be made. However, in the rest of the Imphal Municipality areas the normal programme taken up by the Imphal Municipality will remain in force. A sketch map may be enclosed for ready reference.

AGREEMENT

THIS Agreement is executed at New Delhi on the 29th day of December, 2015:

BY AND BETWEEN

STATE URBAN LIVELIHOOD MISSION, Government of Manipur, having its head office at Manipur Urban Development Agency, PDA Complex, North of AOC, Imphal - 795001 (here in after referred to as "SULM", which expression shall, unless it be repugnant to the subject or context thereof, include its successors and permitted assigns) of the First part, through N. Git Kumar Singh, Mission Director, SULM;

AND

NATIONAL SKILL DEVELOPMENT CORPORATION a not for profit company, registered under the Companies Act, 1956 and licensed under section 25 of the Companies Act, 1956 having its registered office at A-Block, Clarion Collection, Shaheed Jeet Singh Marg, New Delhi-110016 and Corporate Identity Number: U85300DL2008NPL181612 (hereinafter referred to as "NSDC" which expression shall, unless it be repugnant to the subject or context thereof, include its successors and permitted assigns) of the Second part.

SULM and NSDC are hereinafter individually referred to as a "Party", and collectively, as "Parties".

WHEREAS:

- 1. SULM is with mandate to ensure proper implementation and monitoring of the centrally assisted programmes for generating employment opportunities and alleviation of poverty throughout the State. SULM shall be the single point within the Government of Manipur to formulate and steer various Skill Development schemes across the Departments.
- 2. NSDC is a public private partnership established with the object of developing unskilled and semiskilled labour force into productive and skilled labour and to establish, manage, run and support institutes and polytechnics for achieving this objective.
- 3. The Parties are desirous to engage with each other for Skill training, Assessment & Certification of the Candidates ("**Project**").
- 4. In order to facilitate and implement the Project, SULM is desirous of engaging NSDC as a fund manager. NSDC may also engage their empanelled Training Partners for providing training and approved Sector Skill Councils (SSC's) to standardise the assessment & certification processes, in order to achieve the objectives of the Project.

NOW THEREFORE IN CONSIDERATION OF THE MUTUAL COVENANTS HEREINAFTER CONTAINED, THE PARTIES HEREBY AGREE AND THIS AGREEMENT WITNESSETH AS FOLLOWS:

Manipur Urban Dev. Agency
(MUDA), Imphal

2

1. Relationship Between The Parties

- SULM has entered into this Agreement with NSDC for supporting its undervours to achieve the joint objectives in the skilling space.
- b. NSDC shall not be construed as an employee of SULM in performance of this Agreement.
- c. Nothing in this Agreement is intended to be construed, or is deemed to create any rights or remedies to any third party.
- d. It is clarified that at any time that the EST&P guidelines of MoHUPA shall prevail over any other contrary guidelines

2. Process Of Transfer Of The Funds

- a. NSDC shall submit a work plan along with the budget of each activity/ scheme proposed and the total fund requirement to SULM to enable receipt of Funds from SULM for furtherance of the objectives.
- b. SULM shall transfer the required funds to NSDC for implementing the objectives of the Project.
- c. A management fee of Re. 1 (Rupees one only) shall be paid by SULM to NSDC in consideration for the services provided by NSDC under this Agreement.
- d. SULM shall ensure that funds will be disbursed within a period of 15 days of receipt of work plan from NSDC.

3. Responsibilities of SULM:

- a. SULM will facilitate empanelment of the NSDC partners as Skill Training Partners for Employment through Skills Training and Placement ("EST&P") implementation for providing training as per the EST&P Guidelines.
- b. SULM will facilitate the process of engagement with NSDC and its partners for the purpose of Skill training, Assessment & Certification of the Candidates.
- c. SULM hereby appoints NSDC to manage and utilize funds for the Project.
- d. SULM will transfer an amount of Rs. 15,000/- per candidate to NSDC (30% on commencement of training, 50% on completion and certification of candidate and 20% on successful placement of atleast 50% of candidates per batch) for the implementation of the project till the same are achieved. Nothing in this Agreement is intended to be construed, or deemed to create any rights or remedies to any third party.
- e. NSDC will manage utilise the same for the purpose of the Project only and submit utilization certificate to State Urban Livelihood Mission, Manipur ("SULM"). The SULM will include this amount in its expenditure under NULM. In case, NSDC is unable to fully utilise the funds transferred to it, then the unutilised fund will be returned to the SULM.

4. Responsibilities of NSDC:

- a. NSDC would provide technical support for planning, management, monitoring and reporting of trainings including MIS undertaken by SULM.
- b. NSDC will provide assistance through its Sector Skill Councils ("SSCs") to SULM in finalization of courses, their syllabi and normative training fees, and alignment of courses and curriculum to the National Skills Qualification Framework ("NSQF") guidelines.
- c. NSDC will act as the single point contact between the SULM and all the SSCs approved by NSDC for the purpose of designing of the training course curriculum, assessment and certification of the candidates through the established SSCs as per the Guidelines of NULM.
 - d. NSDC will assist SULM in engaging short term specialists/ technical consultants for undertaking special research studies/ surveys/ market research/ creative design related work.
 - e. NSDC through its associated Partners will extend technical non-financial assistance to SULM in:
 - Conducting Studies concerning urban skill development,

Secretary

Secretary

- Selecting the right Training Partners from its approved list of Training Agencies across India.
- Engagement with Sector Skill Councils for assessment and certification of candidates and development of Occupation Standards in compliance to National Skill Qualification Framework (NSQF).
- Identification of innovative and special projects promoting livelihoods for urban poor including vulnerable communities.
- Providing technical support for developing / customizing NSDC's monitoring system called Skill Development Management System to meet up NULM's requirements for monitoring.

5. Monitoring

The Parties will jointly monitor the progress of the training and placement of target numbers in the SULM as per the Guidelines of NULM and the SULM and their authorized persons will have the right to monitor the progress of the training and placement of target numbers.

6. Term

This Agreement will come into effect from the date of signing by all the parties and will be valid till March 31, 2016 from the date of signing of the agreement.

This Agreement may be varied at any time by mutual agreement of the parties in writing. It shall be reviewed one month before the end of the term or at any time mutually agreed by the parties for possible renewal.

7. Governing Law

This Agreement shall be governed by and construed in accordance with the laws of India.

8. Dispute Resolution

All or any dispute, controversy, claim or disagreement arising out of or touching upon or in relation to the terms of this Agreement or its termination, breach, invalidity, including the interpretation and validity thereof and the respective rights and obligations of the Parties hereof, that cannot be amicably resolved by mutual discussion within 30 (thirty) calendar days, shall be settled as per the provisions of the Arbitration and Conciliation Act, 1996 which shall be final and binding arbitration. The proceedings of the arbitration shall be in accordance with the Rules of Arbitration of the Indian Council of Arbitration ("ICA") which rules are deemed to be incorporated by reference in this clause and the award made in pursuance thereof shall be binding on the Parties;

- The place of arbitration shall be Imphal, Manipur. The arbitration proceedings shall be conducted in the English language.
- b. During the pendency of any dispute resolution exercise whether by negotiations or arbitration, the Parties shall be bound by the terms of this Agreement and shall continue to perform their respective obligations not under dispute under this Agreement.
- c. Any provision of this Agreement which is prohibited or unenforceable in any jurisdiction shall, as to such jurisdiction, be ineffective to the extent of prohibition or unenforceability but that shall not invalidate the remaining provisions of this Agreement or affect such provision in any other jurisdiction.

9. Notice

Any notice to be given under this Agreement shall be in writing and may be sent either by registered or certified mail, facsimile transmission, email, or personal delivery.

Any notice to SULM shall be sent or delivered to:

Sub: Financial assistance to MSPDCL for implementation of projects under Integrated Power Development Scheme (IPDS) of Govt. of India in the State of Manipur (Grant Nos. 63351001 to 63351003 & 63350001)

Sir,

This has reference to letter No. 4/51/IPDS/ED (Tech) MSPDCL-2015/340-44 dated 18-05-2015 from MSPDCL regarding financial assistance under IPDS scheme. In this regard, we are pleased to convey that IPDS Monitoring Committee of MoP/GoI, in its 4th meeting held on 6th August'15 has considered your Projects proposals and approved Rs.129.43 crore as project cost for 03 no. circles/zones of MSPDCL in Manipur covering 12 number of towns. Details of approvals are as below:-

1. Approved DPR Cost for three Number circles /zones Rs.129.43 crores

2. Govt. of India (GoI) Grant of Rs.110.02 Crore (85% of SI.No.1)

3. Govt. of India (Gol) Grant for Project Management Agency Rs.0.65 Crore (0.5% of sl.no.1)

4. Total Gol Grant = Rs.110.67 crore

5. Projects to be implemented on turnkey basis as informed by MSPDCL vide its mail dated 10-06-2015 for all three circles

Project area wise details enclosed at Annexure-I

The sanctioned DPRs have been uploaded on IPDS web-portal (www.apdrp.gov.in). Utility is requested to submit signed copies of all the sanctioned DPRs on all pages, alongwith acceptance letter.

The grant amount shall be released through PFC, Nodal Agency as per IPDS guidelines as amended from time to time and as per the terms and conditions of Tripartite Agreement.

Projects completion dates as per IPDS guidelines shall be 01-09-2018 (viz. 30 months from date of sanction letter). The closing date for drawl of grant shall be 01-09-2019 (i.e. one year from project completion date) /or any other date as decided by Monitoring Committee. Expenditure incurred after the sanction letter date shall only be eligible for Grant utilisation.

The approval of projects and Gol Grant shall be subject to IPDS guidelines and Tripartite Agreement executed /to be executed between PFC as the Nodal Agency on behalf of Ministry of Power, the State Government and the Discom concerned. This sanction letter will form part of the Tripartite Agreement.

Release of Gol Grant funds shall be further subject to the terms and conditions of Chapter-IV of IPDS guidelines (Funds Disbursement Guidelines). Extracts of terms and conditions of Funds Disbursement Guideline enclosed at Annexure-IV.

We request you to communicate your acceptance to the above approved project cost and Gol Grant component on the terms and conditions at the earliest in format at **Annexure-II** within **15 days** from the date of issue of this sanction letter.

List of Documents required and Extracts of terms and conditions for funds disbursement (Ref Chapter-IV of IPDS Guidelines) is enclosed at **Annexure-III & IV respectively**.

Your kind attention is invited to Chapter IV Para 15 of the IPDS guidelines, which reads as under:-

15 Pre Closure/Recall of Grant:

- 15.1 In case the utility fails to submit the Project Completion Certificate within a period of one year from the approved project completion date (approved by Monitoring Committee), or not completed project within project completion date due to poor progress, the Nodal Agency shall send a team suo moto to assess the works and expenditure and submit its recommendation to the Monitoring Committee for closure and also refund of excess grant by utility if any released against the project.
- 15.2 In case the utility fails to award the project within nine months of release of first tranche of grant component viz. 10% of the project will be deemed as closed/cancelled and the grant component released shall be refunded by the utility within three months

Modified Clause 15.2 (as approved by IPDS Monitoring Committee in its 6th meeting held on 10.12.2015)

- In case the utility fails to award the sanctioned projects upto Three months after finalization of rate contracts by Committee B or Nine months from release of 1st tranche of grant component by PFC to Utility, whichever is later, the project will be deemed as closed/cancelled and the grant component released shall be refunded by the utility within three months.
- 15.3 In case the utility fails to refund the grant as in above cases, the Nodal Agency has the right to adjust the already released grant against future releases of grant pertaining to other approved projects under the scheme. If there are no

such eligible future releases, the same shall be adjusted against the Central Plan Assistance for the state by Govt. of India.

Thanking you.

Yours faithfully. for POWER FINANCE CORPORATION LTD.

Sub: Acceptance of the sanction of DPRs/Projects (Grant Nos 63351001 to 63351003) and Government of Grant (Grant No. 63350001) and terms and conditions for implementation of projects under IPDS.

Ref: PFC sanction letter No. 02:10:IPDS:MSPDCL/Manipur/Vol.I/36627 dated 2nd March'16.

Sir.

This is with reference to your sanction of even number dated 2nd March'16 under reference above conveying the approval of Monitoring Committee for IPDS for our DPRs/Projects under IPDS with project cost of Rs. 129.43 crore for 3 no. circles /zones and sanction of Government of India Grant of Rs.110.02 Crore, being 85% of approved project costs and Rs.0.65 Crs, being 0.5% of approved project cost as Grant for Project Management Agency (PMA) to be released through Nodal Agency, PFC.

MSPDCL accepts the above sanctions on the terms and conditions as set out in the sanction letter under reference above, IPDS guidelines and Tripartite Agreement. Further, we wish to inform/submit you the following:-

Utility has already received a copy of IPDS guidelines.

 Copy of PFC sanction letter dated 2nd March'16 duly accepted, initialled and stamped on each page is enclosed.

iii) Signed copies of all sanctioned DPRs downloaded from www.apdrp.gov.in are submitted alongwith.

iv) State DRC recommendations and MoM of DEC meeting /consent of DEC are enclosed.

v) We have appointed M/s _____as Project Management Agency (PMA) on____for IPDS.

Thanking you,

Yours faithfully,

(Authorized Signatory) Utility

Documents required

- 1. Acceptance letter in the format at Annexure-II
- Specimen signatures of authorized signatory duly attested by the concerned Secretary/Company Secretary/ MD or CMD of beneficiary Utility.
- 3. Details of dedicated IPDS Bank account.
- 4. Copy of Lol for appointment of Project Management Agency (PMA) [in case appointed]
- Other documents as required during release of Grant funds as per Mechanism for Release of Grant (refer para 2.4 Chapter-IV) of IPDS guidelines.

EXTRACTS OF TERMS AND CONDITIONS FOR FUNDS DISBURSEMENT (Ref Chapter-IV of IPDS Guidelines)

1. Flow of Funds (Para 2 Chapter IV IPDS guidelines)

- 1.1. PFC shall submit proposal to Ministry of Power for release of funds for further release to Utility when all the formalities for release to utilities are completed to ensure minimum time gap between receipt of funds by PFC from Ministry of Power and release to utilities by PFC.
- 1.2. On request from PFC and after satisfying that the conditions specified for release of particular installment have been complied with Ministry of Power shall release fund against that particular installment directly to PFC's dedicated bank account.

1.3. Release by PFC (Para 2.3 Chapter IV IPDS guidelines)

- 1.3.1. On request from Utilities, PFC shall release funds to the dedicated bank accounts of utilities.
- 1.3.2. In order to receive fund under IPDS each utility shall open separate dedicated bank account in nationalized banks having e-banking facility. The nature of Programme account shall be current account with CLTD (Corporate Liquid Term Deposit) facility.
- 1.3.3. Eligible fund for execution of the project shall be released to Programme account and all due payments related to execution of project(s) shall be made by Utilities from this account. Utilities shall maintain books of accounts both for receipt of fund from PFC and release to Contractors for each of the project.
- 1.3.4. The project cost approved by the Monitoring Committee or Award cost of the project (including price variation, if any), whichever is less, shall be the eligible cost for determining the Grant (including additional grant) under the Scheme. However any cost overrun after approval of the project (by Monitoring Committee) due to any reason whatsoever shall not be eligible for any grant and shall be borne by the utility/respective State Government.

1.4. Mechanism for release of grant (Para 2.4 Chapter IV IPDS guidelines):

- 1.4.1. Release of 10% of eligible Grant component (1st tranche) on achievement of following:
 - (i) Approval of the project by the Monitoring Committee

(ii) Execution of tripartite/bipartite agreement

- (iii) Appointment of Project Management Agency (PMA) by the utility.
- 1.4.2. Release of 20% of eligible Grant component (2nd tranche) on achievement of following:
 - (i) Placement of Award
 - (ii) Updating of web portal regarding award details

In case the award cost is lower vis-à-vis the approved project cost, 2nd tranche shall be suitably adjusted.

- 1.4.3. Release of 60% of eligible Grant component (3rd tranche)on submission of following:
 - (i) Certificate from utility regarding utilization of 90% of grant released under 1st and 2nd Tranche
 - (ii) Receipt of 100% of utility contribution (5% of approved project cost for special category states and 10% of approved project cost for other states)
 - (iii) Financial sanction of lenders (FIs/Banks) for 10% of approved project cost for special category states and 30% of approved project cost for other states, in case utility needs to avail loan for the project and/ or commitment to bring its own fund.
 - (iv) Recommendation of PMA supported by a report on expenditure, progress and constraints if any for timely completion of project.
- 1.4.4. Release of 10% of eligible Grant component (final tranche) on submission of following:
 - (i) Project Completion Certificate, duly recommended by the Head of Utility, in the stipulated format.
 - (ii) PMA report regarding Project Completion and expenditure incurred along with recommendation in accordance with the guidelines.
- 1.4.5. In case of timely completion of the project, utilities shall submit all the documents and information in the prescribed format for availing additional grant as per the guidelines.

2. Inter Project Utilization (Para 4 Chapter IV IPDS guidelines)

- 2.1. In the event of the funds earmarked for a particular sanctioned project (say project A) not expended for valid reasons, the Utility can be allowed to utilize such earmarked funds for other projects (s) (say project B) of the same Utility subject to following:
 - 2.1.1. The fund so diverted from project 'A' together with the amount released for project 'B' in the normal course shall at no time exceed sanctioned cost of project 'B'.
 - 2.1.2. Such diversion will be treated as part of next installment due in respect of project 'B' to which the fund are getting diverted to. All conditions relating to compliance of physical and expenditure target laid down for the next installment due in respect of project 'B' shall also be applicable to such diverted amount of funds from project 'A' as if, it will be treated as release of further installment to project 'B'.
 - 2.1.3. The fund so swapped (fully or partially) shall be regularized on receipt of regular installment from PFC.

3. Fund Management by Utility (Para 6 Chapter IV IPDS guidelines)

3.1. Utility shall adopt CINB. All project related payments to the contractors (and others) by Utility shall be done directly from the dedicated bank account and in no case, Utility shall open any other bank account(s) under IPDS. PFC shall have the view right of Utility account.

- 3.2. All payment (to contractors & others) shall be made directly from the dedicated bank account as per the established procedure through e-banking only.
- 3.3. Any interest earned on IPDS capital subsidy/grant shall be remitted to Ministry of Power's bank account on regular basis and at least once in a quarter.
- 3.4. Since capital subsidy/grant under IPDS is Govt. of India money and Utilities are only the custodian of that fund, the Utilities shall take necessary steps to seek exemption from Income Tax Department regarding deduction of Tax at Source by the bank on interest accrued on un-utilized fund under IPDS. However, in case of deduction of TDS by bank, the Utilities shall claim refund of the deducted amount from Income Tax Department directly while filing annual tax return and remit it to Ministry of Power's account.
- 3.5. The Utility shall ensure that funds released under IPDS is utilized for the purpose for which it is released and will not be diverted for any other purposes other than IPDS whatsoever. In case of any breach or deviation further release of funds shall be stopped.
- 3.6. The Utility shall ensure that IPDS fund shall not be invested in any other bank/branch, whether for short term or medium term, including fixed deposits.

4. Utilization Certificate (Para 7 Chapter IV IPDS guidelines)

Utility shall submit utilization certificates (UC) for the funds released during the financial year and the utilization thereof in prescribed format, latest by 30th April of succeeded year. Release of further fund to the state utilities will be subject to submission of UC in the prescribed format. The UC shall provide the physical progress/achievements also apart from financial utilization.

5. Auditing (Para 8 Chapter IV IPDS guidelines)

- 5.1. The Utility will ensure auditing of IPDS accounts relating to receipts of funds from PFC and expenditure incurred by the Utility against such receipts during the F.Y. by independent Chartered Accountant and furnish a report to PFC latest by 30th June of succeeding year. PFC shall consider release of further funds on the receipt of audited report and certificate from Charter Accountant.
- 5.2. In addition to above, the works and any other aspects like quality, quantity, financial etc. under IPDS would be open to audit by the office of the Comptroller & Auditor General of India (C&AG) as well as Internal Audit Wing, Office of Controller of Accounts, Ministry of Power.

6. Monitoring of Programme (Para 9 Chapter IV IPDS guidelines)

- 6.1. The requisite details of project(s) as prescribed by the PFC from time to time shall be entered by the Utility in relevant module of IPDS portal.
- 6.2. It shall be the responsibility of the Utility to ensure placement of all Master Data for the constant updating and accuracy of data relating to the progress of IPDS works, record of Quality control tests as well as the payments made.
- 6.3. Fund releases to Utility would be affected in case of failure in updation of data on web portal.

7. Public Financial Management System (PFMS) (Para 10 Chapter IV IPDS guidelines)

- 7.1. IPDS being a Government of India program, the release from nodal agency (PFC) to utilities shall be done through PFMS and utilities shall be using PFMS for funds flows under the scheme.
- 7.2. The Utilities shall mandatorily enter details like receipts, expenditures, etc in PFMS portal. In case of non entering desired details in PFMS portal, banks may not consider release of funds to Contractors.
- 7.3. Utilities receiving funds under IPDS are to be registered / mapped in PFMS. PFC/Programme Division of Ministry of Power may ensure that all utilities to whom funds are to be released are properly registered/mapped in PFMS.
- 7.4. PFC / Utilities shall submit status of unspent Capital subsidy/grant lying with them to Ministry of Power on quarterly basis.
- Quality Assurance and Concurrent Evaluation Mechanism (Para 11 Chapter IV IPDS guidelines): The utility shall be solely responsible & accountable for assuring quality in IPDS works. Accordingly, utility shall formulate a comprehensive Quality Assurance (QA) and Inspection Plan with an objective to build a quality infrastructure under IPDS works. The QA and Inspection Plan shall be an integral part of the contract agreement with turnkey contractor or equipment supplier/vendor and erection agency as the case may be in case of partial turnkey and departmental execution of works. Documentation with regard to Quality Assurance & Inspection Plan shall be maintained by utility and kept in proper order for scrutiny during the course of project execution and for future reference. The Utility has to ensure that the quality of material/equipment supplied at site and field execution of works under the project is in accordance with Quality Assurance & Inspection Plan. The implementation of the scheme in the particular district shall be reviewed periodically during meeting of District Vigilance and Monitoring Committee.

Nodal Agency shall also formulate an appropriate mechanism for Concurrent and post implementation Evaluation of the scheme. The nodal agency will appoint Third Party Concurrent Evaluating Agency (TPCEA) for carrying out inspections on sample basis. The expenditure on this account shall be met from fund allocated for MoP enabling activities under the scheme.

9. Completion of works (Para 12 Chapter IV IPDS guidelines):

A Project Completion Certificate shall be furnished by the utility, signed by Head of Utility, which shall contain the information regarding date of completion, details of major items of works approved and completed, justification for non-completion or shelving of any project component, expenditure against the project with item wise breakup certified by a practicing Chartered Accountant (CA) etc. The project completion certificate needs to be submitted to nodal agency for release of final tranche of grant component. A format for project completion certificate will be made available in the web portal for the scheme.

10. Eligibility for release of final installment (Para 13 Chapter IV IPDS guidelines): The date of completion as mentioned in the project Completion Certificate shall be within the execution period of 24 months from date of award in case of turnkey execution and 30 months from date of communication of approval by Monitoring committee in case of partial turnkey/departmental execution or as extended by the Monitoring committee to become qualified for the release of final tranche of 10%. The expenditure as per the Project

Completion Certificate or award cost or the cost approved by the Monitoring Committee whichever is lower shall be considered as the final cost of the project for the release of the last installment of 10%, after adjusting any excess release made earlier (to limit the subsidy amount to 60% of the completed project cost).

- 11. Release of additional grant (Please refer Para 14 Chapter IV IPDS guidelines)
- 12. Miscellaneous (Para 17 Chapter IV IPDS guidelines)

Ministry of Power/PFC may, from time to time, issue such directions for compliances of Utilities as may be necessary for smooth implementation of the IPDS.

Note: In case of any deviations/mismatch in above, IPDS guidelines shall prevail.

Government of India Ministry of Tourism (Swadesh Darshan Division)

Transport Bhawan 1, Parliament Street New Delhi:110001 Dated:29,06:2015

TOURISM.

Cottended

File No. 10(1)/2015-SD

The Principal Pay & Accounts Officer, Principal Accounts Office, Ministry of Civil Aviation and Tourism, Double Storey Building, near Dispensary Indian Airlines Building Complex, Safdarjung Airport New Delhi – 110 003.

Subject: Development of Tourist Circuit in Manipur: Imphal-Moirang-Khongjom-Moreh.

- 2. The sanction of the President of India is also accorded to the release of Rs. 14,36,46,082.00 (Rupees Fourteen Crore Thirty Six Lakh Forty Six Thousand and Eighty Two only) i.e. 20% of CFA as first installment in advance for starting the work to the State Government of Manipur. The Payment will be arranged by the Principal Accounts Officer, Ministry of Civil Aviation and Tourism on receipt of the sanction for the payment of grant-in-aid to State Government who will advise the RBI, CAS, Nagpur to credit the balances of the State Government by debiting the same to Central Government.
- 3. The State Government has certified that no utilization certificate is pending from the State Govt. of Manipur in respect of grant in aid released by the Central Govt. in respect of all the schemes/projects/programs of Ministry of Tourism.
- 4. The State Government will execute the project through the Public Works Department, Manipur and shall have to commence the work immediately to ensure timely utilization of funds and to avoid escalation of cost. The project should be commissioned within a maximum period of 24 months from the date issue of sanction and any cost escalation on account of delay etc. would be met by the State Government and no reimbursement will be made by the Central Government on this account.
- The Government of Manipur shall follow CPWD/PWD Schedule of rates and all other codal
 formalities while executing the project. The State Govt, would make the land available for the project and
 would render all possible assistance for completion of the project on time.
- 6. The State Government shall regularly furnish the monthly statement of progress of work and expenditure incurred to the Central Government, Ministry of Tourism. The balance amount of installments will be released in due course on receipt of Utilization Certificate, Completion/Commissioning Certificate to the effect that the project has been completed as per the original plan, drawing, blue print etc., approved by the Central Government and the State Government/Executing Agencies have followed all the codal formalities while executing the project,

Page 3 of 5

Management agreement for proper upkeep maintenance and operation of the asset created and Undertaking that the facility and the land on which the project has been constructed out of Central Financial Assistance will not be transferred/sold/alienated without the approval of the Ministry of Tourism, Government of India.

- Funds will be utilized only for the purpose for which they are released. The State Government shall not rent/lease or transfer the property without the permission of the Ministry of Tourism, Government of India
- The State Government would undertake the responsibility for maintenance of facilities for which
 the funds are released and no reimbursement on account of losses incurred, if any, would be made by the
 Central Government.
- 9. The State Government of Manipur will not keep the amount released by Central Government unutilized for more than six months. In case the funds cannot be utilized by such time, the same will have to be surrendered to Central Government along with the interest earned, if any or their formal approval should be taken to transfer/adjust the amount against other Centrally Financed Projects.
- 10. The State Government shall form a Monitoring Committee for the purpose of providing feedback on the progress of implementation to the Government of India on a regular basis.
- 11. The Expenditure may be made under Demand No.97-Ministry of Tourism; 3601 Grants in -aid to State Government, 03-Grants to Central Plan Scheme (Sub Major Head), 829-Tourism(General)-Development, 01-Tourism Circuit, 01-00.31- Grant-in-aid General for the year 2015-16 (Plan)
- 12. The issues with the concurrence of the Integrated Pinance vide their U.O. No.410 dated 29.06.2015.
- It is certified that this sanction order has not been operated earlier.
- 14. This sanction is noted at Serial No. 3 Page no. 1 in the Register of Grants being maintained by the Swadesh Darshan Division of Ministry of Tourism.

Yours faithfully,

Under Secretary to Govt. of India.

separately at such spot and at such time as or its agent from time to time for collection generators (household level) shall be respo construction & demolition waste an source by line of Municipality or the Agent who shall pick up such segregated construction & demo of necessary charges by the said generator to a processing centre. The details of local shall be available in the respective Ward Off (10) All other Non-biodegradable (Dry) Waste be recyclable shall be stored and delivered by e

to the dry waste collection vehicles, which Municipality or its agents as provided in s spots and at such time as may be notified b time-to-time for collection of such waste, or to sorting centres. Non bio-degradable waste accordance with the Municipality Solid Was Handling) Rules, 2000.

(11) Bulk garden and horticultural waste shall composted at source. The Municipality st guidelines with regard to pruning of tress ar of tree trimmings including collection sche continue to collect and transport segregated

waste by charging suitable fees as notified (12) Disposal by burning of any type of solid wa private or public premise is prohibited.

SUBMISSION

to

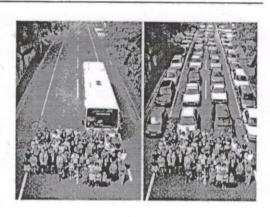

Imphal Municipal Corporation

On Imphal as a Smart City

IMPHAL - A CITY OF CYCLES

The
Chairperson
Imphal Municipal Corporation

Imphal/ Dated: 11 December 2015

Subject: Submission to IMC on making Smart Imphal Mission

Madam/Sir,

Manipur Cycle Club would like to submit our recommendation/ views on the idea of Imphal as a Smart City. Our vision is of Imphal as a City of Cycles.

Imphal is now swarming with cars. The numbers' swelled and still counting. We are now witnessing traffic jams on a regular basis where in some period of the day we fear

to take our car out. The two twin market area of Paona and Thangal bazaar is now saturated with cars and bikes. All important junctions of the city like Kangla roundabout, Singjamei Crossing, Keisampat Junction, Khoyathong Crossing, Chingmeirong Khongnangani Karak are now clogged with vehicle jams. And no technocratic solutions are available as we have seen in the case of Delhi where after building numerous flyovers and even the costly Metro Rail network have to find ways to curb cars. Associated with this is the noise and air pollution which are going beyond the permissible limit. Soon enough, we will be like Delhi - one of the most polluted city on earth. It will be smart for us citizens of this state to not re-invent the wheel. We have an economic system which is largely suitable for cycling or walking. Long distance travels are not really required and with little effort of redesigning, Imphal can add walking and cycling paths making it the city of cycles.

Imphal is 'small' (area)¹ and most of it can be reached by walking or cycling. A good public transport system with a strong (Non motorized Transport) NMT will serve the city well. This indeed is also one of the key features and core infrastructure elements of what is visioned as a smart city. We understand that mobility is about people moving from their stay/home to their work place or their educational centers or to offices or for recreation. Mobility is more than the concept of 'transport', it is about people feeling safe and they enjoy it when they move to their destination(s). Its about creating a Happy and Healthy city! Imphal will be a great place for planning a proper public transport linked by a network of roads, streets and paths for non motorized transport

¹ As per provisional reports of Census India, population of Imphal in 2011 is 268,243. Total area is 31 Sq.Km.

(NMT). Surely it cannot cope with more cars, motor bikes and hence the need for imagining itself for a sustainable future. We therefore call the Government of Manipur to consider our proposition to make Imphal into a city of cycles.

WHY DO WE ASK FOR THIS

By positioning Imphal as a city of cycles, we can achieve the following, inter alia:

- A city less dependent on Oil. For a state that depends on oil imports that
 too for vehicles, and with such great difficulties, it makes sense to find
 ways to reduce consumption of oil. This means less number of oil tankers
 or the ugly sight of queues of vehicles during bandh and highway
 blockade.
- When citizens begin to shift to more sustainable means of transport like cycling they save on money for themselves or for their families.
- Saved money can be used for more essential things like education for children or for more healthy food.
- Healthier citizens, as they get their exercise done while going to work itself, and from less pollution of noise and air. This in turn means less government spending on health expenses.
- Citizens will save more time on work than on traffic.
- Road accidents and casualties will reduce to minimum.
- We, collectively, begin to contribute positively on climate change.

How to make Imphal a City of Cycles

- Envision Imphal as the city of cycles. This can be extended to all the valley in the long run.
- Prepare a state Urban Transport Policy in line with National Urban Transport Policy of 2014.
- 3. Democratize Road Space so that all users get their share of road space.
- Make all roads accessible to people of all age. Particularly the elderly should be safe when on roads or crossing roads.
- 5. Make all roads, streets and crossings friendly to differently abled citizens.
- Make un-interrupted cycle lanes in Imphal and link it progressively to satellite towns.
- 7. Start Cycle on Rent and Cycle Sharing system within the smart design. These sharing or rent stations can be placed in most important connecting roads and parking so as to enable users to reach their destinations.
- Ensure that all public institutions, offices, hospitals, airport, courts, Secretariat, school and colleges have cycle parking facilities.
- 9. Incentivize use of NMT while the opposite for private motor vehicles.

- 10. Ensure that there is a Cycle Expert on road and streets designs in planning department and at IMC.
- 11. Ensure traffic system is functioning for security and safety.

We appreciate that the IMC have created space for people to send their comments. This process will help citizens to own up the city as their own. We partake in building it rather than just some experts deciding it. This submission is made with the belief that our submission will have meaningful space in this smart city of Imphal.

Sincerely,

President
Ramananda Wangkheirakpam
On behalf of Manipur Cycle Club

CC to:

- 1. Additional Chief Secretary (Finance and Planning)
- 2. Special Secretary (Transport)
- 3. Chief Town Planner (Town Planner)

EXTRACT COPY OF THE 81ST SPECIAL MEETING OF IMPHAL MUNICIPAL CORPORATION HELD ON 18TH APRIL, 2016 AT 2:00 pm IN THE CONFERENCE HALL OF THE CORPORATION WITH SHRI A. NIMAI SHARMA, HON'BLE CHAIRPERSON IN THE CHAIR

<u>Agenda 2:</u> To discuss the matter relating to the submission of "SMART CITY PROPOSAL" for Fast Track Competition.

Resolution: After minute of deliberation, the Imphal Municipal Corporation in its meeting unanimously approved the improved "SMART CITY PROPOSAL" for onward submission to the Ministry of Urban Development (MoUD), Government of India to participate in the Fast Track Competition of selection of cities to be developed as smart cities including the financial plan of the Smart City Proposal

The Municipal Corporation further approved setting up of Special Purpose Vehicle (SPV) for implementation of Smart City Mission in Imphal as per the guidelines issued by the Ministry of Urban Development, Government of India.

THE SOUTH OF THE PARTY OF THE P

-sd-(A.Nimai Sharma) Chairperson, Imphal Municipal Corporation

Certified to be true copy,

(Ng. Uttam Singh)
Executive Officer,
Imphal Municipal Corporation

PROCEEDINGS OF THE STATE LEVEL HIGH POWERED STEERING COMMITTEE (HPSC) ON IMPROVEMENT OF SMART CITY PROPOSAL FOR FAST TRACK COMPETITION HELD AT 02:00 PM ON 18/04/2016 IN THE CABINET HALL OF THE CHIEF MINISTER'S SECRETERIATE WITH SHRI O. NABAKISHORE SINGH, CHIEF SECRETARY, MANIPUR IN THE CHAIR.

In the Chair: Chief Secretary, Manipur.

Members Present:

- 1. Dr. J Suresh Babu, Addl. Chief Secretary (Home/Finance), Government of Manipur.
- 2. R.K. Dinesh Singh, Commissioner (MAHUD/YAS), Government of Manipur.
- 3. Vineet Jashi, Commissioner (Power/Planning), Government of Manipur.
- 4. W. Malemnganba Chenglei, Deputy Secretary (MAHUD), Government of Manipur.
- 5. N. Gitkumar Singh, Chief Town Planner, TPD, Manipur.
- 6. L. Geetchandra Singh, Under Secretary (MAHUD), Government of Manipur.
- 7. H. Sunil Singh, Chief Engineer, PHED, Manipur.
- 8. Ng. Uttam Singh, Executive Officer, IMC.
- 9. H. Ibotombi Singh, Executive Engineer (PHED), Government of Manipur.
- 10. N. Nirmalkumar Singh, Executive Engineer (PHED), Government of Manipur.

Special invitees:

- 1. I. Hemochandra Singh, Minister (Revenue/Forest/ Law)
- 2. Y. Erabot Singh, MLA (Khurai AC)
- 3. L. Ibomcha Singh, MLA (Keishamthong AC)
- 4. E. Chand Singh, MLA (Yaiskul AC)
- 5. L. Nandakumar Singh, MLA (Uripok AC)
- 6. W. Brajabidhu Singh, MLA (Lamshang AC)
- 7. RK. Imo Singh, MLA (Sagolband AC)

At the outset, the Chief Secretary, Manipur, Chairman of the HPSC welcomed all the Hon'ble MLAs of Assembly Constituencies falling under Imphal Municipal Corporation and all the members of HPSC and requested the Commissioner (MAHUD) to initiate the discussion. The Commissioner (MAHUD) highlighted the details of the process undergone by the Imphal Municipal Corporation in revising and improving the Smart City Proposal which was developed after thorough Citizen Consultation at various levels and various forums. It was also informed that Imphal Municipal Corporation has tied up with Administrative Staff College of India (ASCI), Hyderabad as mentoring agency, besides the consulting agency Arkitechno Consultant (India) Pvt. Ltd., Bhubaneswar.

After threadbare discussion, the following decisions were taken:

- The improved Smart City Proposal for Imphal City which is prepared by M/s Arkitechno Consultant Pvt. Ltd., Bhubaneswar incorporating the suggestions collected from citizens, stake holders and Mentor (ASCI, Hyderabad) after several rounds of consultation is approved.
- 2. The Committee also approved the formation of a Special Purpose Vehicle for successful implementation of the Smart City Mission.
- 3. Formation of City Level Smart City Advisory Forum to advise and enable collaboration of various stake holders in the implementation of Smart City Mission is approved.
- 4. Different para-statal bodies/departments present in the Meeting such as Finance Dept., Home Dept., Planning Dept., Power Dept., Youth Affairs & Sport Dept., PHED, Town Planning Department, MAHUD Dept. etc. assured full support to the successful implementation of Smart City Mission by the Special Purpose Vehicles & Imphal Municipal Corporation.
- Further, the Committee authorized the Commissioner (MAHUD) to submit the revised and improved proposal to the Ministry of Urban Development, Government of India and take any decision on behalf of the Committee for successful implementation of Smart City Mission.

The Meeting ended with thanks from the Chair.

OFFICE OF THE IMPHAL MUNICIPAL CORPORATION

No. IMC/P/219/Smart-City/2015-17

Imphal, the 18th April, 2016

PRELIMINARY HUMAN RESOURCE PLAN FOR SPECIAL PURPOSE VEHICLE (SPV)

The Special Purpose Vehicle (SPV) will be established as a public limited company under the Companies Act, 2013. There will be minimum of 8 (Eight) shareholders – 4 (Four) shareholders each from the promoters (the Manipur Government and the Imphal Municipal Corporation).

It is proposed to have a Board of Directors having one representative from the Central Government, three representatives each from the Manipur Government and Imphal Municipal Corporation. There will be two independent Directors selected from the data bank maintained by the Ministry of Corporate Affairs.

There would be a Chairperson and a full time Chief Executive Officer (CEO). The Chief Executive Officer (CEO) of the SPV would be appointed through open recruitment.

The required manpower including Functional Directors will be either deputed from the line Departments or outsourced or appointed through open recruitment as per the decision of the Board of Directors.

(Ng. Uttam Singh)

Executive Officer

Imphal Municipal Corperation and Imphal Municipal Corperation

Note: There will be some changes on inclusion of Private parties in the Special Purpose Vehicle (SPV).

Copy to :-

- 1. The Commissioner (MAHUD), Government of Manipur.
- 2. The Director (MAHUD), Government of Manipur.
- 3. The Director, Arkitechno Consultants (India), Pvt. Ltd.
- 4. Guard file

OFFICE OF THE IMPHAL MUNICIPAL CORPORATION

No. IMC/P/219/Smart-City/2015-17

Imphal, the 18th April, 2016

INSTITUTIONAL ARRANGEMENT FOR FUNCTIONING THE SPECIAL PURPOSE VEHICLE (SPV)

The Special Purpose Vehicle (SPV) will be established as a public limited company under the Companies Act, 2013. The State Government and the ULB (Imphal Municipal Corporation) will have 50:50 shareholding at all times. Maximum effort would be given to rope in Private Sector or Financial Institutional in the SPV, provided the State Government and the Municipal Corporation together have the majority shareholding and control of the SPV.

All possible efforts would be made to ensure financial sustainability of the SPV through various means.

Mini-SPVs would be established under the Parent SPV as when required to ensure smooth implementation of the Mission. Rights and Obligations, decision making powers of the Municipal Corporation under the Municipal Act and of the Urban Development Department with respect of the Smart City Mission would be delegated to the Chief Executive Officer of SPV.

(Ng. Uttam Singh)
